

ERRATUM

The Dark Matter filament between Abell 222/223 – ERRATUM

Jörg P. Dietrich, Norbert Werner, Douglas Clowe, Alexis
Finoguenov, Tom Kitching, Lance Miller and Aurora Simionescu

doi: <https://doi.org/10.1017/S1743921316009832>, Published by Cambridge University Press, 12 October 2016.

Keywords. Gravitational lensing: weak, galaxies: clusters: individual (Abell 222, Abell 223), large-scale structure of universe, erratum

It has come to our attention that the article *The Dark Matter filament between Abell 222/223* (Dietrich et al. 2016) published on 12 October 2016 contained an error in the copyright line. The article was published with copyright IAU. The correct copyright line is ©The Authors 2017. Published by Cambridge University Press. This has been corrected in the online version.

We apologise to the authors of the article, and to Springer Nature for this error.
