In this paper an incorrect range for items of the BDI-II was used (i.e. 1–4 instead of 0–3) for which the authors apologize. This means that the mean scores in Tables 2 and 3 should be 21 points less than those presented.

In Table 2, the correct mean BDI-II scores should read: 24.7 (13.1), 19.4 (11.3).

In the note to Table 2, the range should read: BDI-II sum score (0–63).

In Table 3, the correct BDI-II scores should read: 19.4 (11.3), 27.9 (11.0), 32.2 (12.5), 17.7 (13.6), 19.1 (13.5), 25.6 (12.0).
