

## MRS Members Choose 1990 Officers, Councillors

MRS members cast their ballots this past September to elect three officers and seven councillors. Newly elected to serve the Materials Research Society, their terms beginning January 1, 1990 are:

**First Vice President**

**James B. Roberto**

Associate Director, Solid State Division  
Oak Ridge National Laboratory

**Second Vice President**

**Slade Cargill**

Senior Manager, Structure of Materials  
Physical Sciences Department  
IBM T.J. Watson Research Center

**Secretary**

**Carol M. Jantzen**

Ceramist, Glass Technology Group  
Westinghouse Savannah River Co.

**Councillors**

**John E.E. Baglin**

Research Manager, Physical Sciences Department  
IBM Almaden Research Center

**Mildred S. Dresselhaus**

Institute Professor of Electrical Engineering and Physics  
Massachusetts Institute of Technology

**Harry C. Gatos**

Professor of Electronic Materials,  
Professor of Molecular Engineering  
Massachusetts Institute of Technology

**Murray Gibson**

Head, Electronics and Photonics  
Materials Research Department  
AT&T Bell Laboratories

**Edward J. Kramer**

Samuel B. Eckert Professor of Materials  
Science and Engineering  
Cornell University

**Frans Spaepen**

Gordon McKay Professor of Applied Physics  
Harvard University

**C.W. White**

Group Leader, Ion-Solid Interactions  
Director, Surface Modifications and Characterization Facility  
Oak Ridge National Laboratory

Russell R. Chianelli, Group Leader, Catalytic Materials, at the Corporate Research Laboratories of Exxon Research and Engineering, Annandale, New Jersey, who was elected First Vice President last year will serve as President of the Materials Research Society in 1990. Sue Kelso, a scientist with Therma-Wave, Inc., Fremont, California, who was elected Treasurer last year, will continue her two-year term of office through 1990. Current President Bob Chang will continue to serve the Society in 1990 through the office of Immediate Past President. MRS

## Mike Quick Named Presidential Adviser on MRS Development

L.M. Quick, director of corporate research at Engelhard Corporation, Edison, New Jersey, was recently appointed to the newly created position of Presidential Adviser on MRS Development. In making the announcement, MRS President Bob Chang emphasized, "Mike has done a superb job as chairman of the MRS Corporate Participation Committee. I am confident that he will do an excellent job in this new position as adviser on MRS development."

Chang indicated that one of Mike's first duties would be to develop resources for new MRS awards.

"During the past couple of years," Chang said, "the Society has not only seen the rapid expansion of its membership, but also an unprecedented increase in new activities and projects to serve its members and the materials community. Our members and volunteers are excited about our future and our potential for new accomplishments. In his new role, Mike will enable MRS to seek out and make the most of the many opportunities out there for the Society and its members." MRS

**Rapid Thermal Processing**

## 2017 LPCVD System

**Process Products single wafer RTP** is an alternative to conventional processing for emerging technology requirements.

**Processes:**

- Silicides
- Epitaxy
- Oxidation
- LPCVD
- Poly

**Features and options include:**

- Control temperature with thermocouples, pyrometers or Accufiber optical fiber system
- Turbo/Cryo Pump (1 x 10<sup>-6</sup> Torr)
- Toxic Gas Handling
- Mass Flow Controls
- PC Controlled

**PROCESS PRODUCTS CORPORATION**
