

Final Program

Thirty-Seventh Annual Meeting

International Neuropsychological Society

February 11-14, 2009
Atlanta, Georgia, USA

LIST OF WITHDRAWN ABSTRACTS

- M. KRAFT
D.E. VANCE
D.E. VANCE
D. PETRAC
F. DEHGhani ARANI
R. ROSTAMI
A.J. GIULIANO
L.A. GREENBERG
A. HULL
B. BELSHER
S. MCDONALD
R. NAIDOO
A.M. PIZZI
F. BARWICK
L.J. JULIAN
M. DI PINTO
C.C. EVANS
L. LIN
J. JACKSON
N.I. LANDRØ
O. MATEU-ROBUSTÉ
S. MAYORAL-RODRÍGUEZ
F. PÉREZ-ALVAREZ
C. TIMONEDA-GALLART
L. BERNARDIN
- Aging and memory: The effects of a multi-component intervention.
Does Memory, Reasoning, and Speed of Processing Affect Falling among Community-Dwelling Older Adults?
A Comparison of Cognitive and Everyday Functioning in Younger and Older Adults with and without HIV.
Self-Reported Lifetime Stress and Performance on Neuropsychological Tasks in Older Adults.
Effectiveness of Neurofeedback Treatment on Psychological Health, Craving and Abnormal Brain Activities in opiate dependent patients.
The Effectiveness of Neurofeedback Treatment on Psychopathological Symptoms, Craving and Abnormal Brain Activities in Opiate Dependent Patients.
Neurocognition in Early Onset Schizophrenia and Schizoaffective Disorders.
Facial Affect Recognition Ability in Veterans who Screen Positive for Traumatic Brain Injury (TBI): Contribution of Emotional and Cognitive Factors.
Comparison of the Repeatable Battery for Assessment of Neuropsychological Status (RBANS) and Neuropsychological Assessment Battery Screening Module (S-NAB) in Veterans Screened Positive for History of TBI.
Neuropsychological Sequelae of Pure Blast Exposure Among Recent Combat Returnees Screened Positive for Traumatic Brain Injury (TBI).
Deficits in Social Problem Solving following Traumatic Brain Injury: Are they related to Theory of Mind, Emotion Identification and Executive Functioning.
Assessing Neurocognitive Functioning of Pediatric Neuro-Oncology Patients: The Challenges.
Patients with Frontal and Temporal Lobe Epilepsies Report Similar Emotional and Personality Traits.
Do Patient and Significant Other Ratings of Vegetative Depression Symptoms Reflect Limitations in MS Patients' Physical Activity and Mobility?
Associations among Neurological Disability, Cognitive Dysfunction, and Longitudinal Outcomes in Multiple Sclerosis.
An Investigation of Verbal Learning and Visual-Auditory Learning after Conformal Radiation Therapy in Children with Localized CNS Tumors.
Comparison of the FIM-Cognitive subscale and RBANS in an Acute Stroke Rehabilitation Sample.
Developmental patterns in the detection of faux pas in healthy school-aged Chinese children: Relationship to executive functions.
Visuospatial performance and executive functioning in patients with spina bifida.
The Effects of 5-HTTLPR Polymorphisms and Gender on Cognitive Control and on Processing of Emotional Facial Expressions.
A Better Look at the Remediation of Learning Disabilities: a Cognitive and Emotional Methodology Applied in a Sample of Cases.
From Learning to Speak to Reading and Writing Acquisition: Understanding the Development of Cognitive Processing in Children.
Neuroscience and Behavior: A New Insight for Education, Assessment and Remediation.
Cognition and Emotion during Childhood: Towards a New Neuropsychological Approach to the Assessment and Remediation of Learning Disabilities.
Alexander Disease: a Rare Look at the Natural Evolution and Neuropsychological Progression from Infancy to Adulthood.

X. LI	Familial Risks for Anxiety Among Siblings Based on Hospitalizations in Sweden.
J.C. THOMPSON,	Predictability of Outcomes on the Independent Living Scale Based on RBANS Subtest Performance in a Sample of Patients with Cortical-Based Dementing Disorders.
H. HAGEN	Convergent Validity of CVLT-II, BVM-T-R, & MMSE Within Differentiated Dementia Groups.
C.A. NOGGLE	Altering Factor Structures of the RBANS Based on Cortical or Subcortical Dementing Etiologies.
J.C. THOMPSON	Correlations between Outcomes on the Word Memory Test and RBANS Subtest Performance.
T.D. PARSONS	Development of a Neuropsychological Battery using Virtual Environments.
D. PETRAC	Self-reported Lifetime Stress and Performance on Neuropsychological Tasks in Older Adults.

Addendum

H. Hagen should be removed as the second author from the following abstract:

L. RENTERIA, H. HAGEN, L.A. SWOROWSKI & D.S. GOLDSTEIN.
The MMPI-2 and Personnel Selection: An Examination of Bias in
the Screening of Hispanic Public Safety Officers.
