Author Index	159
Subject Index	162

The *Journal of Biosocial Science* issues supplements, distinct from its regular issues, not associated with any particular volume and known by their serial number and date.

This service is meant to cater for original papers too long for inclusion in the *Journal* in the ordinary way, for extended reviews, for monographs and for the proceedings of symposia and similar meetings. The supplements are likely to be of varying length and elaboration, and they will be priced appropriately and sold separately from the regular volumes of the *Journal*.
