

## GENERAL NOTES

### TRAVELLING AWARDS IN OPHTHALMOLOGY AND OTOTOLOGY 1951-52

THE Medical Research Council invite applications for travelling awards for the academic year 1951-52 to be provided from the Alexander Pigott Wernher Memorial Trust, in accordance with a scheme approved by the Trustees. Under the terms of the bequest, the funds are to be applied "towards the prevention and cure of blindness and deafness in the United Kingdom and British Empire, and in particular research in connection therewith by financing medical men and students within the Empire to study methods and practices in all countries of the world".

These awards are intended for suitably qualified medical graduates with some previous experience of research work in ophthalmology or otology; in general, fellowships will be made for periods of up to a year for specific research purposes, but grants may also be given for short-term visits abroad to study particular methods of investigation and treatment in these fields. Fellowships will as a rule provide for appropriate maintenance allowance and travelling expenses, whereas grants for short-term visits (up to 3 months) will ordinarily cover travelling expenses only.

Forms of application for these awards may be obtained from the Secretary, Medical Research Council, 38 Old Queen Street, London, S.W.1, with whom applications must be lodged *by the 1st May, 1951*.

---

### OXFORD MEDICAL SCHOOL

A Litchfield lecture will be delivered by Mr. V. E. Negus on Wednesday, May 15, at 5 p.m.

The subject is—

THE DEFENCE OF THE AIR PASSAGES  
(with particular regard to Ciliary action)

A film will be shown.

## POST-TONSILLECTOMY COMFORT *through* 'SALIVARY ANALGESIA'

The pain of traumatized tissues following tonsillectomy, demands its own relief—and points the need for analgesia that quickly reaches the irritated area.

ASPERGUM provides 'salivary analgesia' through the simple act of chewing—it brings pain-relieving acetylsalicylic acid into *intimate* and *prolonged* contact with the tonsillar

region, seldom reached even intermittently by gargling. The rhythmic stimulation of muscular action also aids in relieving local spasticity & stiffness: more rapid tissue repair is promoted. Each pleasantly flavoured chewing gum tablet provides 3½ grains acetylsalicylic acid, permitting frequent use. Particularly suitable for children.

# Aspergum

for more than two decades a dependable  
and welcome aid to patient-comfort

*Ethically promoted in packages of 16 tablets and moisture proof bottles of 36 and 250*

WHITE LABORATORIES LTD, 428, SOUTHCROFT ROAD, LONDON, S.W.16

## BINDING

### Journal of Laryngology & Otology

Subscribers wishing to have their Journals bound can do so by sending them to the Publishers.

Volumes are strongly bound in whole dark blue buckram cases, with gold lettering on spine. The cost of binding is 25s. per volume, including postage.

Some missing parts can be supplied at 7s. 6d. each, or the whole volume, complete in the above binding, for 88s.

Publishers' cases can be supplied for 10s., including postage.

HEADLEY BROTHERS, 109 KINGSWAY, LONDON, W.C.2
