

International Journal of Technology Assessment in Health Care

Editors

Stanley J. Reiser, University of Texas, Health
Science Center at Houston
Egon Jonsson, Karolinska Institute and the
Swedish Council of Technology Assessment in
Health Care

Official Journal of the International Society of
Technology Assessment in Health Care

The use of technology in health care has created some of the major dilemmas in society today. The cost of new technologies, the allocation of available resources and the ethical questions involved are topics of major concern to medical practitioners and researchers. The *International Journal of Technology Assessment in Health Care* serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients and its impact on society. It covers the generation, evaluation, diffusion and use of health care technology. In addition to general essays, regular columns on technology assessment reports, reviews and announcements, and thematic sections are published.

Quarterly (ISSN 0266-4623)
Volume 10, 1994
Institutions \$126.00; Individuals \$90.00.
