

INDEX OF SUBJECTS

- Aerosols pesticide, evaporation cf, 487
 Air, sterilization of, by heat, 445
 α -naphthyl thiourea, effect of particle size on toxicity of, 328
 Antibiotic, local, effect of, on nasal carriage of *Staphylococcus pyogenes*, 379
 Antitoxin, diphtheria, concentration of, in blood of young adults, 148
 Antu, effect of particle size on toxicity, 328
 Australia, behaviour of myxomatosis in, 12
- Bacterium coli*, role of, in gastro-enteritis of babies, 357
Bacterium coli type I, comparison of 6- and 24-hour incubation at 44° C., 50
 β -antigen, antigenic structure of *Escherichia coli* O₁₁₁B₄H₂ possessing, 297
Botulinum, *Clostridium*, A and B, toxin-antitoxin reactions of, 180
 Bronchitis, chronic, carriage of pneumococci by patients, and their families, 225
 Brucella antisera, passive protection with, 133
 Brucella species, sodium diethyldithiocarbamate and oxine in differentiation of, 305
- Calves from birth to weaning, electrophoretic and serological studies with reference to agglutinins to *Trichomonas foetus*, 261
 Calves from birth to weaning, electrophoretic studies on sera from, 247
Candida albicans agglutinins in human sera, 509
Clostridium botulinum, types A and B toxin-antitoxin reactions, 180
 Coagulase, staphylococcal, protective action of glycine on clotting by, 129
Coli, *bacterium*, type I, comparison of 6- and 24-hour incubation at 44° C., 50
 Complement, effect of glucose and glycine on heat-inactivation of, 335
 Conglutination, direct, with *Rickettsia burneti*, 62
- Diphtheria antitoxin, concentration in blood of young adults, 148
- Electrophoretic and serological studies on calf sera with reference to agglutinins to *Trichomonas foetus*, 261
 Electrophoretic studies on calf sera, 247
 Enteric fevers and normal salmonella agglutinins in the Gold Coast, 368
Escherichia coli O₁₁₁B₄H₂, antigenic structure of, 297
 Evaporation of pesticide aerosols, 487
- Faeces in intestinal diseases, numbers of pathogenic bacilli in, 217
 Food poisoning, staphylococcal and spray-dried milk, 387
 Fowl-pox inclusions, structure of, 102
 Freeze-dried biological materials, residual moisture in, 426
- Gastro-enteritis of babies, role of *Bacterium coli* in, 357
 Glucose and glycine, effect of, on heat-inactivation of complement, 335
 Glycine and glucose, effect of, on heat-inactivation of complement, 335
 Glycine, protective action on clotting, 129
 Gold Coast, enteric fevers and normal salmonella agglutinins in, 368
- Haemaphysalis punctata*, isolation of *Rickettsia burneti* from, 322
Haemophilus pertussis, histamine-sensitizing property of, 197
 Hepatitis virus, transmission of, by immunization, 124
 Histamine-sensitizing property of *Haemophilus pertussis*, 197
- Immunization, active, of guinea-pigs passively immunized with homologous antitoxic serum, 172
 Immunization. transmission of hepatitis virus by, 124

- Impetigo contagiosa, bacteriology of, 458
 Impetigo contagiosa, clinical and bacteriological aspects, 495
 Industry, light, thermal sensations of workers in, 112
 Influenza virus, disintegration of, in host cell, 474
 Influenza viruses, production of non-infective particles among, 276
 Intestinal diseases, numbers of pathogenic bacilli in faeces, 217
 Iso-antibodies in the rabbit, 398, 408, 420
 Iso-antisera of the rabbit marked with one ^{131}I , 420

Leptospira australis A in soil and water, 436

 Mice, baby, titration of viruses in, 339
 Mice, intensive breeding of, 234
 Milk, spray-dried, and staphylococcal food poisoning, 387
 Myxomatosis, behaviour of, in Australia, 12

 Oxine and sodium diethyldithiocarbamate in differentiation of brucella, 305

Paratyphi B, *Salmonella*, phage typing and new type of, 1
 Pertussis vaccine, litter-mate assays of, 106
 Pesticide aerosols, evaporation of, 487
 Phage typing of *Salmonella*, *paratyphi* B, 1
 Phage typing of *Shigella sonnei*, 54
 Pneumococci, carriage of, by patients with chronic bronchitis, and their families, 225
Proteus of animal origin, 26
Proteus of animal origin, pathogenicity in mice, 212

 Q fever, direct agglutination with *Rickettsia burneti*, 63
 Q fever in Britain, *Rickettsia burneti* from placenta and wool of sheep, 313
 Q fever in Britain, *Rickettsia burneti* from the tick, 322

 Rabbit, agglutinability of red corpuscles by iso-antibodies, 408
 Rabbit, iso-antibodies marked with ^{131}I , 420
 Rabbit, red corpuscle antigens in, 398
 Radiative and convective stimuli of threshold intensity, 32
 Radioactive iodine and rabbit iso-antibodies, 420
 Radioactive phosphorus and the disintegration of influenza virus, 474
 Rats, albino, toxicity of α -naphthyl thiourea (antu) for, 328
 Red corpuscle antigens in the rabbit, 398
 Red corpuscles of the rabbit, agglutinability of, by homologous iso-antisera, 408
 Red corpuscles of the rabbit and ^{131}I -marked iso-antisera, 420
 Resistance to virus infection, measuring, 143
Rickettsia burneti, direct agglutination with, 63
Rickettsia burneti, isolation from placenta and wool of sheep, 313
Rickettsia burneti, isolation from the tick *Haemaphysalis punctata*, 322

 Salmonella agglutinins, normal, and enteric fevers in the Gold Coast, 368
Salmonella, *paratyphi* B, phage typing and new type of, 1
 Sample volume, choice of, in bacteriology of water, 239
 Sensations, thermal, of workers in light industry, 112
 Sheep, isolation of *Rickettsia burneti* from, 313
Shigella sonnei, phage typing of, 54
 'Sittard', new type of *Salmonella paratyphi* B, 1
 Smallpox vaccine, development of stable, 76
 Sodium diethyldithiocarbamate and oxine in differentiation of brucella, 305
 Soil and water, *Leptospira australis* A in, 436
 Staphylococcal food poisoning and spray-dried milk, 387
Staphylococcus aureus and impetigo, 458

- Staphylococcus pyogenes*, effect of local antibiotic on nasal carriage of, 379
Sterilization of air by heat, 445
Streptococcus pyogenes and impetigo, 458
- Thrombin, protective action of glycine on clotting by, 129
Toxin-antitoxin reactions of *Clostridium botulinum* types A and B, 180
Trichomonas foetus, agglutinins to, electrophoretic and serological studies on calf sera, 261
- Ultra-violet irradiated vaccinia virus, antigenicity of, 513
- Vaccine, pertussis, litter-mate assays of, 106
Vaccine, smallpox, development of stable, 76
Vaccinia virus, UVL irradiated, antigenicity of, 513
Virus infection, measuring resistance to, 143
Viruses, titration of, in baby mice, 339
von Magnus phenomenon and non-infective particles among influenza viruses, 276
- Water, choice of sample volume in bacteriology of, 239
Water and soil, *Leptospira australis* A in, 436
