

# Medical Instrument Catalogues

on microfiche

Advisor: Drs K.S. Grooss, Museum Boerhaave, Leiden

4-cell bath. Louis & H. Loewenstein.  
Elektromedizinische Instrumente und Apparate. 1909

A microfiche collection of sales catalogues of medical instrument makers who have been advertising in printed matter since the 18<sup>th</sup> century.

This collection offers an illustrated history of medical instruments which gives a good idea of the range of instruments employed in medical procedures.

An indispensable source of information for any researcher dealing with the history of medicine.

The collection now contains 600 selected catalogues from the richly endowed libraries of Museum Boerhaave at Leiden and the Thackray Medical Museum in Leeds.

# DOCTORS, POLITICS AND SOCIETY HISTORICAL ESSAYS

*Edited by Dorothy Porter and Roy Porter*

Amsterdam/Atlanta, GA 1993. 332 pp.  
(Clio Medica 23)

ISBN: 90-5183-510-8                      Bound Hfl. 160,-/US-\$ 76.-  
ISBN: 90-5183-991-X                      Paper Hfl. 50,-/US-\$ 29.-

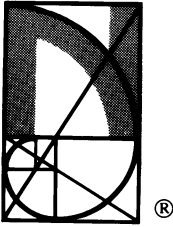

The great British reformer Jeremy Bentham wrote that 'the art of legislation is but the art of healing practised upon a large scale'. He added that 'It is the common endeavour of both to relieve men from the miseries of life. But the physician relieves them one by one: the legislator by millions at a time'. Bentham raised the question of the interplay of medicine with politics. It forms an important topic with powerful contemporary overtones. This volume, containing eleven essays plus a lengthy introduction, seeks to explore it historically. It takes a long perspective, covering the last two centuries and also an international viewpoint, examining Britain in detail but also containing contributions dealing with the United States, Germany, Russia and France.
