VOLUME V - PART 3

(to be published in August, 1965)

<i>On Fourier transforms of radial functions . . . . .</i>	J. L. GRIFFITH
<i>Boolean powers of simple groups . . . . .</i>	B. H. NEUMANN and S. YAMAMURO
<i>Integral operator methods for generalized axially sym- metric potentials in <math>(n+1)</math> variables . . . . .</i>	R. P. GILBERT and H. C. HOWARD
<i>On the rate of convergence of waiting times . . . . .</i>	C. R. HEATHCOTE and C. K. CHEONG
<i>The propagation of plane waves in plastic solids . . . . .</i>	J. W. CRAGGS and G. J. COOPER
<i>On digital distribution in some integer sequences . . . . .</i>	B. D. CRAVEN
<i>and other papers.</i>

**— NOORDHOFF —**

**VECTOR SPACES** / by D. A. Raikov

Translated from the Russian by Leo F. Boron, a.o.

This new work is, in the words of the author, 'an algebraic introduction to the theory of topological linear spaces'. The first chapter is of an introductory nature: here, the reader will find a discussion of fundamental concepts. The second chapter is devoted to the general theory of vector spaces. However, the third and last chapter is of the greatest interest; here, the author considers in detail L-spaces which were first introduced by him. The second section of this chapter concerns the duality theory of L-spaces; the chapter ends with a study of L-spaces over the fields of real and complex numbers.

This book will be of interest to specialists in various branches of mathematics.  
1965 - 200 pp. - cloth Dfl. 27.50 / \$ 7.60

**P. Noordhoff Ltd. / Scientific publishers**

**THE COLLECTED MATHEMATICAL WORKS OF J. H. AND A. G. M. MICHELL** / *Michell Brothers*

*Available* Edited by F. W. Niedenfuhr and J. R. M. Radok. With a foreword by Prof. T. M. Cherry  
1965 - cloth - 340 pp. - Dfl. 25.50 / \$ 7.10

**THE STRENGTH, FRACTURE AND FATIGUE OF MATERIALS** / *T. Yokobori*

*Available* Translated by S. Mhtsuo and M. Inoue. Edited by J. D. C. Crisp.  
372 pp. - cloth - Dfl. 48.50 / \$ 13.50

**MATRIX MECHANICS** / *H. S. Green*

*Available* With a foreword by Max Born  
1965 - 118 pp. - cloth - Dfl. 19.75 / \$ 5.50

**THEORY OF ELASTICITY** / *M. Filonenko-Borodich*

*Available* Translated from the Russian by M. Konayeva; edited by G. Ivanov-Mumjiev.  
1964 - 378 pp. cloth - Dfl. 27.50 / \$ 7.60

**FOUNDATIONS OF THE THEORY OF ALGEBRAIC INVARIANTS**

*G. B. Gurevich*

*Available* Translated by J. R. M. Radok and A. J. M. Spencer  
1964 - 437 pp. - cloth Dfl. 58.50 / \$ 16.25

**DIFFERENTIAL AND INTEGRAL CALCULUS** / *N. Piskunov*

*Available* Translated from the Russian by G. Yankovsky  
1965 - 895 pp. - cloth Dfl. 35.— / \$ 9.90

**MONGE-AMPÈRE EQUATIONS OF ELLIPTIC TYPE** / *A. V. Pogorelov*

*Available* Translated from the first Russian edition by Leo F. Boron, with the assistance of A. L. Rabenstein and R. C. Bollinger.  
1965 - 116 pp. - cloth Dfl. 17.50 / U.S. \$ 4.90

**TABLES FOR THE COMPUTATION OF TOROIDAL SHELLS** /

*L. N. Osipova and S. H. Tumarkin*

*Publication:* Translated from the Russian by Morris D. Friedman / These tables are for the solution of differential equations of toroidal shells by an asymptotic method. The tables calculated earlier, are also used herein. The computations of shells become very simple because of the existence of the tables. Meanwhile, the asymptotic method yields simple formulas for the maximum stresses, displacements and other quantities. cloth - 126 pp.  
*July 1965*
