**ANCIENT THERAPEUTIC ARTS**

**William Brockbank**

The Fitzpatrick Lectures for 1950–51 form the text of this profusely illustrated volume. "On page after page, Dr. Brockbank delights us by some quaint and curious quotation from the works of those who extolled or derided the procedures and who turned their inventive genius to perfecting the necessary apparatus. He has made, too, a notable collection of contemporary illustrations which cannot fail to fascinate the medical or social historian."—*The Lancet*.  
160 pages. 93 illustrations. 25s. net

**ALMROTH WRIGHT—PROVOCATIVE DOCTOR AND THINKER**

**Leonard Colebrook, FRS**

"Almroth Wright was the provocative type of scientist, and there were moments when he became wrong-headed. As Metchnikoff remarked, he had many good original ideas and others that were just original. He was argumentative, contradictory, cross; he gave the impression of being arrogant, even conceited. 'I make it a principle,' he said, 'never to write anything that won't give offence to somebody.' Dr. Colebrook has written his biography in deep loyalty, without any unwelcome literary artifice, and with perfect frankness. He has done a good deed."—HAROLD NICOLSON, *The Observer*.  
288 pages. Illustrated. 21s. net

**A HUNDRED YEARS OF NURSING**

**At St. Mary's Hospital, Paddington**

**Sir Zachary Cope, FRCS**

This is a companion volume to the author's well-known *History of St. Mary's Medical School*, published during the centenary of St. Mary's, 1954. "An interesting book in which the development of nursing during the past hundred years is seen in the nursing history of one hospital. The influence exerted by many strong personalities is shown, particularly that of Florence Nightingale."—*Charing Cross Hospital Gazette*.  
144 pages. 12 illustrations. 12s. 6d. net

**WILLIAM CLIFT**

**Jessie Dobson**

"A biography of William Clift was long overdue. . . . This is a book which will be enjoyed by all who are interested in the history of medicine—whether surgeons or physicians."—*The Practitioner*.  
156 pages. 24 plates. 7s. 6d. net

**SIR WILLIAM GOWERS**

**Macdonald Critchley, MD, FRCP**

"Dr. Critchley has written a valuable memoir which is short enough to make the reader wish for more. Ten illustrations add to its interest, and it includes a bibliography."—SIR RUSSELL BRAIN, Bart., *British Medical Journal*.  
118 pages. 7 plates. 17s. 6d. net

**MEDICINE, MAGIC AND MYTHOLOGY**

**John Precope, MD**

This work is an account of the evolution of pre-Hippocratic medicine based on the study of anthropology and a knowledge of Ancient Greek. It sheds new light on this fascinating subject and will be of interest to all students of the history of medicine.
