PRESS LTD

The Safety Net.

Ticehurst House was established as a psychiatric clinic more than 200 years ago. Today it retains its position at the forefront of psychiatric care.

The reputation of Ticehurst House stems from the comprehensive service it offers to patients and to the medical and psychiatric professions.

The psychiatric team at Ticehurst House offers a full spectrum of treatments in the care of short and long term patients and specialises in the active care of short term patients, the treatment of alcoholics and the assessment and treatment of psychogeriatric patients.

The hospital responds promptly to requests for out-patient consultation and admission of patients. There are excellent liaison procedures between Ticehurst House and outside Consultants and G.P's.

The special facilities at Ticehurst House include a psychogeriatric assessment unit, the Newington Alcohol Treatment Unit and facilities for day care patients.

The hospital enjoys an excellent reputation for its cuisine. Bedrooms are spacious and equipped with nurse-call systems.

Ticehurst House is easily accessible by both road and rail, being close to Wadhurst in Sussex (70 minutes from Charing Cross), and stands in forty-eight acres of delightful gardens and grounds.
