The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY
WALTER HOWARTH

ASSISTED BY
W. M. MOLLISON

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter added.

4. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

7. The Annual Subscription commencing with the January issue is Two Pounds sterling, post free, and is payable in advance.

8. Single copies, both of the present and the previous series, are on sale at Four Shillings each.

9. All Subscriptions, advertising and business communications should be sent to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

United States of America

Orders for this Journal may be sent either through a local bookseller, or to Messrs. G. E. STECHERT & Co., 31-33 East 10th Street, New York, or may be sent direct to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.

SULPHONAMIDES

in the treatment of
cerebrospinal fever

The advent of the sulphonamides has made the use of serum in cerebrospinal fever largely redundant.

“ On theoretical grounds, serum has been given to combat the toxæmia, but much clinical evidence suggests that toxæmia is overcome no more rapidly by a combination of serum and drug than by drug alone.” (Banks, Practitioner, Nov., '42.) The same authority (*ibid*) states that sulphathiazole is one of the best drugs for the treatment of cerebrospinal fever.

‘Thiazamide’ brand sulphathiazole is now freely available from Pharmaceutical Specialities (May & Baker) Limited.

Supplies:

‘Thiazamide’ brand sulphathiazole; tablets of 0.5 Gm.; containers of 25, 100 and 500.

‘Thiazamide’ Sodium brand sulphathiazole soluble; ampoules containing the equivalent of 1 Gm. sulphathiazole; boxes of 6 and 25 ampoules.

PRESCRIBE THE EASY EFFECTIVE METHOD

When spraying, the patient can hold his head in a natural position, yet the solution spreads throughout the nasal cavity, assuring thorough treatment. Effective dropper-application, on the other hand, requires a complicated posture technique which patients are apt to neglect in home treatment.

DeVilbiss ATOMIZERS

DROPPER ?

ATOMIZER ?

These illustrations, which are based on X-ray research, clearly demonstrate the advantages of the atomizer as compared with the dropper
