## It's the lowest cost health protection you can get.

Now there's a simple, cost-effective way to put a lid on needlesticks.

Introducing the SafeSnap™ Security Syringe. Needlestick prevention that's as easy to use as *push, pull, snap and seal*. SafeSnap is the only security syringe with a retractable needle that locks and seals safely inside the syringe barrel. Where it can't stick you or anyone else. Ever again.

Plus, the small sealed unit won't add to the jumble of exposed needles in the sharps container. And since the sealed unit is only half the size of other safety syringes, it will cut your cost of disposal in half.

No other security syringe offers this double level of protection. And no other device makes needlestick prevention so easy and affordable. Call 1-800-723-3762 (1-800 SAFESNAP) for a free trial. Or fax back the form below to (619) 674-1177 today.
