

PHILOSOPHY FROM CAMBRIDGE

Belief Policies

Paul Helm

How do we form and modify our beliefs about the world? While accepting that what we believe is determined by evidence, and therefore is not directly under our control, Professor Helm argues that no theory of knowledge is complete without standards for accepting and rejecting evidence as belief-worthy.

Hegel's Phenomenology

The Sociality of Reason

Terry Pinkard

This book is the most detailed commentary on Hegel's *Phenomenology of Spirit* available and develops an independent philosophical account of the general theory of knowledge, culture, and history contained in it. It reconstructs Hegel's theoretical philosophy and shows its connection to the ethical and political theory.

The Philosophy of Social Science

An Introduction

Martin Hollis

In revealing the crucial role to be played by philosophy in the study of the social sciences, this text unearths central philosophical problems underlying the standard ways of thinking about social actions, leading the reader to reflect upon the nature of scientific method itself.

An Introduction to Kant's Ethics

Roger J. Sullivan

This accessible introduction to Kant's ethics approaches the moral theory via the political philosophy, thus allowing the reader to appreciate why Kant argued that the legal structure for any civil society must have a moral basis.

Permissible Killing

The Self-Defence Justification of Homicide

Suzanne Uniacke

This book sets out and discusses the principles relevant to self-defense as a moral and legal justification of homicide as "permissible killing." We assume that we have a right to use lethal force in self-defense if necessary. Yet the principles of justified self-defense are rarely addressed in sufficient depth.

Hume's Theory of Consciousness

Wayne Waxman

This book attempts a comprehensive analysis and reevaluation of Hume's *Treatise of Human Nature*. It argues for a new understanding of the nature of Hume's skepticism and its relation to his naturalism. The book also elucidates Hume's views on induction, causality, identity, language, time-consciousness, memory, aspect-seeing and animal reason.

Political Thought from Cambridge

Cambridge Texts in the History of Political Thought

Plato: The Statesman

Julia Annas and Robin Waterfield, Editors

Considered crucial for an understanding of Socrates' political thinking, *The Statesman* continues themes of the *Republic*, particularly the importance of knowledge as entitlement to rule. Plato has, however, altered his view of the moral psychology of the citizen, and revised his position on the role of law and institutions.

Seneca: Moral and Political Writings

John M. Cooper and J.F. Procopé, Editors

This volume offers new translations of the most important of Seneca's "Moral Essays": *On Anger, On Mercy, On the Private Life*, and the first four books of *On Favours*, revealing the social and moral outlook of an ancient Stoic thinker.

Stirner: The Ego and Its Own

David Leopold, Editor

Attacking Feuerbach, Moses Hess and others to sound the death-knell of Left Hegelianism, *The Ego and its Own* (1844) constitutes an enduring critique of liberalism and socialism from the perspective of an extreme eccentric individualism. This edition includes an Introduction that places Max Stirner in his historical context.

Practical Reasoning about Final Ends

Henry S. Richardson

Henry Richardson argues that we can determine our ends rationally. He constructs a rich and original theory of how we can reason about what to seek for its own sake as a final goal.
