### The Patrons Fund

The Patrons Fund was established to broaden the basis of financial support for Paleobiology and thus to encourage paleontological publication.

To become a Patron, send a check payable to Paleobiology to:

The Paleontological Society gratefully acknowledges the following Patrons of Paleobiology:

DAVID BOTTJER	HARUYOSHI MAEDA	IN MEMORY OF TOM SCHOPF
RUSSELL ENGELMAN	GEORGE R. MCGHEE JR.	ANDREJ SPIRIDONOV
MICHAEL FOOTE	ARNOLD MILLER	JAMES SPRINKLE
JOHN HANDLEY	WILLIAM MILLER III	JACEK SULANOWSKI
SUE HIRSCHFELD	MARK PATZKOWSKY	SHERMAN SUTER
JOHN HUNTLEY	P. DAVID POLLY	ROGER THOMAS
SUSAN KIDWELL	DAVID RODLAND	

### Aims & Scope

Paleobiology publishes original contributions of any length (but normally 10-50 manuscript pages) dealing with any aspect of biological paleontology. Emphasis is placed on biological or paleobiological processes and patterns, including macroevolution, extinction, diversification, speciation, functional morphology, bio-geography, phylogeny, paleoecology, molecular paleontology, taphonomy, natural selection and patterns of variation, abundance, and distribution in space and time, among others. Taxonomic papers are welcome if they have significant and broad applications. Papers concerning research on recent organisms and systems are appropriate if they are of particular interest to paleontologists. Papers should typically interest readers from more than one specialty. Proposals for symposium volumes should be discussed in advance with the editors.

### The Paleontological Society

The Paleontological Society is an international nonprofit organization devoted exclusively to the advancement of the science of paleontology: invertebrate and vertebrate paleontology, micropaleontology, and paleobotany. The Society was founded in 1908 in Baltimore, Maryland, and was incorporated in April 1968 in the District of Columbia. The Society has several membership categories, including regular, student, and retired. Members, representing 40 countries, consist of professional paleontologists, academicians, science editors, earth-science teachers, museum specialists, and undergraduate and graduate students and post doctoral scholars, as well as avocational paleontologists.
