

INDEX OF AUTHORS

Alleyne, G. A. O.	205	Gloster, J.	39	Narasinga Rao, B. S.	97
Anasuya, A.	97	Golob, P.	213	Newberne, P. M.	61
Armstrong, D. G.	197	Goodhart, J. M.	39	Nixon, S. E.	227, 241
Bawden, R. J.	291	Henning, S. J.	145	Owen, E. C.	45, 259
Bertrand, P. V.	39	Hewitt, D.	213	Pařízková, J.	3
Bjarnason, J.	313	Hird, F. J. R.	119, 129, 145	Pfeffer, E.	197
Bremner, I.	279	Hood, C. E. A.	39	Rasmussen, P.	29
Cahn, A. J.	331, 345	Hoogenraad, N. J.	119, 129	Reid, R. S.	157, 179
Carpenter, K. J.	313	Hunt, C. E.	61	Rook, J. A. F.	269
Carlton, W. W.	61	Hyldgaard-Jensen, J.	157, 179	Spincer, J.	269
Coates, M. E.	213, 259	Kay, M. G.	179	Thompson, A.	197
Copping, A. M.	1	Knight, A. H.	279	Towers, K. G.	269
Crooke, A. C.	39	Leng, R. A.	129	Walker, D. M.	11, 23
Eadie, J. M.	157	McCullagh, K. G.	109	West, D. W.	45, 259
Easty, D. L.	307	McNaughton, J. W.	331, 345	White, R. G.	129
Faltová, E.	3	Malcolm, L. A.	297	Whitelaw, F. G.	157, 179
Faruque, O.	11, 23	Mann, S. O.	157	Widdowson, E. M.	109
Field, A. C.	71, 85	Mawer, G. E.	227, 241	Witter, R. C.	269
Fletcher, R. F.	39				

FORTHCOMING PAPERS

The next issue of *The British Journal of Nutrition* will appear in June. It is hoped to publish in it the following papers:

- Vitamin E and hepatotoxic agents. 3. Vitamin E, synthetic antioxidants and carbon tetrachloride toxicity in the rat. By M. A. CAWTHORNE, J. BUNYAN, M. V. SENNITT, J. GREEN and P. GRASSO.
- Studies on platelet 5-hydroxytryptamine in East Africans. By M. A. CRAWFORD, I. L. HANSEN and K. SOMERS.
- Studies on plasma amino acids in East African adults in relation to endomyocardial fibrosis. By M. A. CRAWFORD, M. M. GALE, K. SOMERS and I. L. HANSEN.
- The effect of antibiotics on rats receiving a vitamin B₁₂-deficient diet. By D. L. WILLIAMS and G. H. SPRAY.
- The influence of frequency of sucrose intake on serum lipid, protein and carbohydrate levels. By I. MACDONALD, BETTY L. COLES, JUDITH BRICE and M. H. JOURDAN.
- The nutritive value of fat in the diet of the milk-fed lamb. 1. The apparent and corrected digestibilities of different dietary fats and of their constituent fatty acids. By D. M. WALKER and G. B. STOKES.
- The nutritive value of fat in the diet of the milk-fed lamb. 2. The effect of different dietary fats on the composition of the body fats. By G. B. STOKES and D. M. WALKER.
- The nutrition of the veal calf. 2. The effect of different levels of protein and fat in milk substitute diets. By J. H. B. ROY, I. J. F. STOBO, HELEN J. GASTON and J. C. GREATOREX.
- The nutrition of the veal calf. 3. A comparison of liquid skim milk with a diet of reconstituted spray-dried skim-milk powder containing 20% margarine fat. By J. H. B. ROY, I. J. F. STOBO and HELEN J. GASTON.
- Incidence of protein deficiency in relation to different diets in India. By P. V. SUKHATME.
- Intermittent and continuous faecal markers in short-term metabolic balance studies in young women. By SUSAN J. SHARPE and MARION F. ROBINSON.
- Artificial rearing of pigs. 1. Effect of frequency and level of feeding on performance and digestion of milk proteins. By R. BRAUDE, K. G. MITCHELL, M. J. NEWPORT and J. W. G. PORTER.
- Calorie conversion factors. An experimental reassessment of the factors used in the calculation of the energy value of human diets. By D. A. T. SOUTHGATE and J. V. G. A. DURNIN.
- Effects of dietary glycerol on the serum glyceride level of men and women. By I. MACDONALD.
- Nucleic acid metabolism in the ruminant. 2. Formation of microbial nucleic acids in the rumen in relation to the digestion of food nitrogen, and the fate of dietary nucleic acids. By R. H. SMITH and A. B. MCALLAN.
- Changes in the concentration of specific amino acids in the serum of experimentally malnourished pigs. By R. F. GRIMBLE and R. G. WHITEHEAD.
- The energy cost of human lactation. By A. M. THOMSON, F. E. HYTEN and W. Z. BILLEWICZ.
- An investigation of the hyperaminoaciduria in phenylketonuria associated with the feeding of certain commercial low-phenylalanine preparations. By BARBARA E. CLAYTON, A. F. HEELEY and MARY HEELEY.
- The absorption and distribution of the naturally occurring tocochromanols in the rat. By C. K. PEARSON and M. MCC. BARNES.
- Synthesis of microbial protein from ammonia in the sheep's rumen, and the proportion of dietary nitrogen converted into microbial protein. By A. F. PILGRIM, F. V. GRAY, R. A. WELLER and G. B. BELLING.

The British Journal of Nutrition

Volume 24 No. 1 March 1970

CONTENTS

Obituary Notice (Miss Eleanor Margaret Hume). By ALICE M. COPPING	1
Physical activity, body fat and experimental cardiac necrosis. By JANA PAŘÍZKOVÁ and EVA FALTOVÁ	3-10
Vitamin A and protein interrelationships in the milk-fed lamb. By O. FARUQUE and D. M. WALKER	11-22
The relative biological potencies of retinyl palmitate and β -carotene for the milk-fed lamb. By O. FARUQUE and D. M. WALKER	23-28
The action of vitamin D on the degree of mineralization of bone tissue in rats given adequate amounts of calcium and phosphorus in the diet. A microradiographic study. By P. RASMUSSEN	29-38
Observations on obese patients eating isocaloric reducing diets with varying proportions of carbohydrate. By CATHRYN E. A. HOOD, J. M. GOODHART, R. F. FLETCHER, JOSEPHINE GLOSTER, P. V. BERTRAND and A. C. CROOKE	39-44
Metabolites of riboflavin in milk, urine and tissues of animals in relation to alimentary symbiotic bacteria. By E. C. OWEN and D. W. WEST	45-60
Interrelationships between copper deficiency and dietary ascorbic acid in the rabbit. By C. E. HUNT, W. W. CARLTON and P. M. NEWBERNE	61-69
Studies on magnesium in ruminant nutrition. 10. Effect of lactation on the excretion of magnesium and faecal dry matter by grazing monozygotic twin cows. By A. C. FIELD	71-83
Studies on magnesium in ruminant nutrition. 11. Effect of lactation on the excretion of calcium and potassium by grazing monozygotic twin cows. By A. C. FIELD	85-96
Relationship between body collagen and urinary hydroxyproline excretion in young rats fed on a low-protein or low-calorie diet. By A. ANASUYA and B. S. NARASINGA RAO	97-107
The milk of the African elephant. By K. G. McCULLAGH and ELSIE M. WIDDOWSON	109-117
The chemical composition of rumen bacteria and cell walls from rumen bacteria. By N. J. HOOGENRAAD and F. J. R. HIRD	119-127
Utilization of ^{14}C -labelled <i>Bacillus subtilis</i> and <i>Escherichia coli</i> by sheep. By N. J. HOOGENRAAD, F. J. R. HIRD, R. G. WHITE and R. A. LENG	129-144
Concentrations and metabolism of volatile fatty acids in the fermentative organs of two species of kangaroo and the guinea-pig. By SUSAN J. HENNING and F. J. R. HIRD	145-155
Observations on the microbiology and biochemistry of the rumen in cattle given different quantities of a pelleted barley ration. By J. MARGARET EADIE, J. HYLDEGAARD-JENSEN, S. O. MANN, R. S. REID and F. G. WHITELAW	157-177
Volatile fatty acid production in the rumen of cattle given an all-concentrate diet. By F. G. WHITELAW, J. HYLDEGAARD-JENSEN, R. S. REID and MOIRA G. KAY	179-195
Studies on intestinal digestion in the sheep. 3. Net movement of certain inorganic elements in the digestive tract on rations containing different proportions of hay and rolled barley. By E. PFEFFER, A. THOMPSON and D. G. ARMSTRONG	197-204
Studies on total body potassium in malnourished infants. Factors affecting potassium repletion. By G. A. O. ALLEYNE	205-212
A comparison of the effects of raw and heated soya-bean meal in diets for germ-free and conventional chicks. By MARIE E. COATES, D. HEWITT and P. GOLOB	213-225
The digestion and absorption of protein in man. 1. The site of absorption. By S. ELIZABETH NIXON and G. E. MAWER	227-240
The digestion and absorption of protein in man. 2. The form in which digested protein is absorbed. By S. ELIZABETH NIXON and G. E. MAWER	241-258
Metabolism of riboflavin in germ-free and conventional rabbits. By E. C. OWEN, D. W. WEST and MARIE E. COATES	259-267
The effects of intravenous infusions of triglycerides on the composition of milk fat in the sow. By R. C. WITTER, J. SPINER, J. A. F. ROOK and K. G. TOWERS	269-278
The complexes of zinc, copper and manganese present in ryegrass. By I. BREMNER and A. H. KNIGHT	279-289
The effects of nematode parasitism on the rate of passage of food residues through the alimentary tract of sheep. By R. J. BAWDEN	291-296
Growth retardation in a New Guinea boarding school and its response to supplementary feeding. By L. A. MALCOLM	297-305
The relationship of diet to serum cholesterol levels in young men in Antarctica. By D. L. EASTY	307-312
Mechanisms of heat damage in proteins. 2. Chemical changes in pure proteins. By J. BJARNASON and K. J. CARPENTER	313-329
A study of the food intake and activity of a group of urban adolescents. By JEAN W. McNAUGHTON and AUDREY J. CAHN	331-344
A study of the energy expenditure and food intake of five boys and four girls. By JEAN W. McNAUGHTON and AUDREY J. CAHN	345-355
