
Abortion and Dialogue

Pro-Choice, Pro-Life, and American Law

Ruth Colker

"... Colker thoughtfully argues that the right to abortion would be better premised on guarantees of equal protection than on the right to privacy."
—*Publishers Weekly*

"The issues she takes on are crucial—not solely the subject areas of reproductive rights and law, or public policy lenses and judicial impact on women's and children's lives, but also the more difficult and fundamental questions of how these 'hot topics' can be approached so as to make the most of the good will of all and the force of free discussion for social learning. . . . she brings a strong, evolving and distinctive perspective to the discussion."
—Emily Fowler Hartigan

Ruth Colker's feminist-theological perspective on reproductive health issues encourages both pro-choice and pro-life advocates to consider how the value of life is implicated in discussions of reproduction.

The Hidden Life of Polish Prisons

Paweł Moczydłowski

"A very important addition to the literature on prisons. It offers illuminating glimpses at Polish society and culture. And it is unique in its description of a prison system about which we know very little. Moczydłowski's most important contribution is his lucid description of prison life."
—William Selke

In the first behind-the-walls look at the "hidden life" of Polish prisons, this study penetrates the inmates' facade of silence and deception toward outsiders and paints a vivid portrait of the prison's secret social organization. The description of the origins and functions of hidden relationships in prisons is both a unique look at life behind bars in an Eastern European country and an important contribution to comparative criminology.

Family Violence

Volume 11 of the Crime and Justice series

Volume editors: Lloyd Ohlin and Michael Tonry

Series editors: Michael Tonry and Norval Morris

Increasingly drawing the attention of legislators, sociologists, criminologists, policymakers, and the public at large, family violence is a far-ranging problem that was once tolerated in relative silence. In this climate of increased awareness, just how much do we really know about the actual causes and effective control of violence within families?

Family Violence presents a review of current research on the legal, social, and criminological issues surrounding family violence. Providing a comprehensive approach to all areas of family violence (including domestic assault and homicide, marital rape, child abuse, and reprisal), this collection of commissioned essays includes
