COMMUNISM IN CENTRAL AMERICA AND THE CARIBBEAN

edited by Robert Wesson

As the ten essays in this volume make clear, Central America and the Caribbean are deeply troubled by economic and social problems. Their peoples are ready recruits for radical movements and their sentiments are almost inevitably anti-American because the United States has generally supported the status quo. Advocating the goal of regional stability in each area, the contributors to this volume make recommendations for U.S. policy with a view towards understanding and respect for the aspirations of the inhabitants.

Latin American Media: Guidance and Censorship

Marvin Alisky

Of the Latin American countries only Costa Rica, Colombia, and Venezuela enjoy complete press freedom. Mass media in the other countries of this region suffer government controls or censorship. This book will give you a clear perspective on the relationships between media, political forces, and governments in Latin America. It goes beyond the traditional contrasts of press freedom vs. press censorship to examine Mexico, Brazil, and Peru as a third category of nations—those with government guidelines and pressures on the media without formal censorship.

Hacienda and Market in 18th Century Mexico

The Rural Economy of the Guadalajara Region, 1675–1820

Eric Van Young

In the 18th century the haciendas near Guadalajara responded to that city's rapidly escalating demand for meat, maize, wheat, and other necessities. By studying how agricultural production, patterns of capital investment, the labor system, and land ownership and use changed to meet the city's increasing needs, Van Young demonstrates the vital role cities play in the modernization of traditional peasant societies.

Struggle and Survival in Colonial America

Edited by David G. Sweet and Gary B. Nash

"This volume is illuminating as to the various ways in which the powerless, especially women, slaves, Blacks, Indians, and *castas* coped with exploitation, a relative lack of social mobility, racism, and the hidden or overt threat of violence. . . . well written and entertaining to read."—*Choice* "A well-researched and highly entertaining look at people whose resourcefulness, sense of humor and knowledge helped create a state of country and of mind."—*Los Angeles Times* \$28.50 hardcover, \$8.95 paperback

Agrarian Populism and the Mexican State

The Struggle for Land in Sonora

Steven E. Sanderson

As oil-rich Mexico faces the 1980s, the conflicts between its agrarian populism and capitalist industrialization call for resolution. In this study of Sonora, a key agricultural state, Sanderson examines in economic and political terms the post-revolutionary rise of agrarian reform and its decline from 1917 to 1976. The events in Sonora exemplify those that dominated Mexican politics in the late 1970s. \$22.75

Santiago's Sword

Chatino Peasant Religion and Economics

James B. Greenberg

A central problem in Mesoamerica has been the seemingly wasteful expenditures of resources by civil-religious organizations on saints' fiestas. This study examines the ceremonial system, the system of symbols, the socio-economic base of the community, and the disintegration of past forms of community life under the impact of cash crop commercialization among the Chatino Indians in Oaxaca, Mexico. \$18.50

The Transamazon
Colonization Scheme

Nigel J.H. Smith

In his assessment of current and future prospects for settlement along the Transamazon Highway in Brazil, Smith argues that besides damaging the world's richest habitat, the Transamazon Colonization Scheme has failed on its own terms—precisely because its planners did not understand the Amazonian terrain, ecology, and hazards to crops and human life. \$20.00

Mexican Cinema

Reflections of a Society
1896–1980

Carl L. Mora

This is the first English-language survey of Mexican cinema. Mexican commercial films from different periods offer a rich diversity of insights into a changing society: not only have these movies reflected “official” values such as devotion to God, nation, and family, but they have dealt with deeply rooted cultural attitudes like machismo, sexism, and class and racial conflicts. Mexican cinema has also practiced its own form of “cultural imperialism” by disseminating Mexican speech patterns, music, and attitudes throughout the Spanish-speaking world. \$29.50

Stories on a String

The Brazilian

Literatura de Cordel

Candace Slater

The Brazilian stories-in-verse called *literatura de cordel* are today's richest heirs to a centuries-old ballad tradition. Slater introduces the *cordel* to literary specialists, folklorists, and social scientists as well as general readers. Based on months of interviews with the popular poets and their audiences, she provides a delightful overview of the tradition. \$30.00

The Uruguay

A Historical Romance of
South America

José Basílio da Gama

The Sir Richard F. Burton Translation; Edited with Introduction and Notes by Frederick C.H. Garcia and Edward F. Stanton

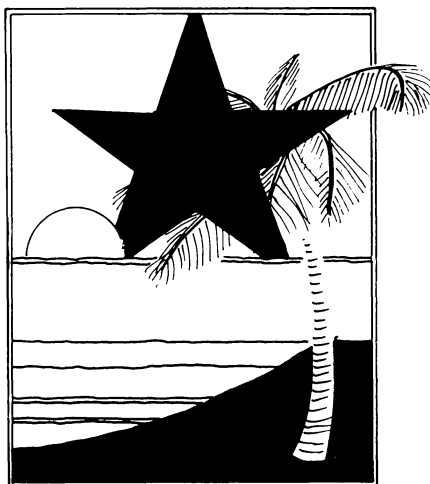

The Brazilian epic poem *O Uruguai*, first published in 1769, caught the imagination of Richard F. Burton during his service as Her Majesty's consul in Santos between 1865 and 1868. For Burton and his contemporaries, Gama had created a revolutionary vision of the New World. This volume brings Burton's verse translation—still the sole English version—to light. His Preface, concise biography of Gama, and critical analysis of the poem are also published here, along with the original Portuguese text. \$20.00

**The Economy of Socialist Cuba
A Two-Decade Appraisal**

Carmelo Mesa-Lago

"*The Economy of Socialist Cuba* is a definitive work on the economics of the first two decades of revolutionary government in Cuba. . . . It contains the most complete collection of Cuban economic data ever assembled. As always, Mesa-Lago is particularly sensitive to their limits, yet at the same time he is able to draw from them a richly detailed profile of Cuban economic performance."—*LARR*

Drug Control in the Americas
William O. Walker III

This study, based on extensive documentary research, examines the origins and development of inter-American drug control. Walker argues provocatively that the problems of drug control must be viewed within a broad context, one that considers both the role of culture in society, and the operations of individual bureaucracies. He further looks at the increase in drug traffic and the problems of control over the last thirty years, in the wake of historical change in Colombia, Southeast Asia, and the Middle East.

**Latin American Populism in
Comparative Perspective**

Edited by Michael Conniff

This is the first volume to treat populism from a comparative perspective. "The essays are well-researched, highly perceptive, clearly organized, and lucidly written. The book maintains an impressive level of thematic unity, a difficult and praiseworthy accomplishment in an edited work of essays. . . . This is a fascinating and stimulating book."—*Carl Solberg*
