*In an excellent work on serum therapeutics by Professor Landouzy is quoted the above passage from "The Pharsalia" of Lucan describing, in the year 60 A.D., the customs of the Pylly, a people found by Cato's army during its sojourn in Africa. In ancient times natives of the East and Egypt claimed that Immunity was transmitted by Heredity.*

## “Emandem” Aural Syringe

Devised by  
P. FERGUSON, F.R.C.S.Eng.

The efferent tube fitted into a speculum gives a flat stream of water.

The outflow from the speculum being greater than the ingoing stream, considerable force may be used without danger.

The operator has the meatus under inspection while syringing, and can manœuvre to remove any foreign body.

The smaller nozzle shown in engraving forms a safe syringe to entrust to a patient for self-use.

## “Emandem” Improved Metallic Filament Lamp.

*(Registered Design.)*

Gives a light of intense brilliancy (40–50 c.p.), almost equal to the Nernst Lamp, which is now unobtainable.

## (MEDICATED) Throat Pastilles

*Efficient*

*Palatable*

The basis of the "Allenburys" Throat Pastilles is a special *pâte de jujube*. The pastilles are demulcent, soluble and palatable, and contain accurate amounts of pure active drugs. They dissolve slowly and uniformly, so ensuring the thorough suffusion of the mucous membrane, and the prolonged continuous direct effect of the active ingredients.

The following pastilles are largely used, and have been found from long practical experience to be very efficacious.
