Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: kchristomanou@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 16, 2013 (12 issues):
Internet/print package: £886/\$1700 Americas only/€1420 EU only
Internet only: £675/\$1280 Americas only/€1420 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.

US POSTMASTERS: Please send address corrections to

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

Public Health Nutrition is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS[®], Global Health, Index Medicus[®] (MEDLINE[®]), EMBASE, Excerpta Medica, BIOSIS[®] Database and CINAHL[®] Database
Public Health Nutrition participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at phn@nutsoc.org.uk

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

Editorial

- Diet and nutritional status during pregnancy
F Ahmed and M Tseng 1337

HOT TOPIC – Nutrition in pregnancy

- Dietary intakes of women during pregnancy in low- and middle-income countries
SE Lee, SA Talegawkar, M Merialdi and LE Caulfield 1340

- Plasma zinc, vitamin B₁₂ and α-tocopherol are positively and plasma γ-tocopherol is negatively associated with Hb concentration in early pregnancy in north-west Bangladesh
AA Shamim, A Kabir, RD Merrill, H Ali, M Rashid, K Schulze, A Labrique, KP West Jr and P Christian 1354

- Iodine and iron status of pregnant women in Lubumbashi, Democratic Republic of Congo
L Habimana, KE Twite, P Wallemacq, P De Nayer, C Daumerie, P Donnen, MK Kalenga and A Robert 1362

- Prevalence of iron deficiency states and risk of haemoconcentration during pregnancy according to initial iron stores and iron supplementation
V Arija, B Ribot and N Aranda 1371

- Dietary intake in pregnant women in a Spanish Mediterranean area: as good as it is supposed to be?
CL Rodríguez-Bernal, R Ramón, J Quiles, M Murcia, EM Navarrete-Muñoz, J Vioque, F Ballester and M Rebagliato 1379

- Use of dietary supplements in pregnant women in relation to sociodemographic factors – a report from The Environmental Determinants of Diabetes in the Young (TEDDY) study
CA Aronsson, K Vehik, J Yang, U Uusitalo, K Hay, G Joslowski, A Riikonen, L Ballard, SM Virtanen and JM Norris, on behalf of the TEDDY Study Group 1390

- Fibre intake and evolution of BMI: from pre-pregnancy to postpartum
M Drehmer, SA Camey, MA Nunes, BB Duncan, M Lacerda, AP Pinheiro and MI Schmidt 1403

- Pre-pregnancy obesity and maternal nutritional biomarker status during pregnancy: a factor analysis
LE Tomedi, C-CH Chang, PK Newby, RW Evans, JF Luther, KL Wisner and LM Bodnar 1414

- Relative validation of a quantitative FFQ for use in Brazilian pregnant women
P Barbieri, RY Nishimura, LC Crivellenti and DS Sartorelli 1419

- Evaluation of an FFQ to assess total energy and nutrient intakes in severely obese pregnant women
NA Mohd-Shukri, JL Bolton, JE Norman, BR Walker and RM Reynolds 1427

Assessment and methodology

- A cluster analysis of patterns of objectively measured physical activity in Hong Kong
PH Lee, Y-Y Yu, I McDowell, GM Leung and TH Lam 1436

- Validation of a quantitative FFQ for a study of diet and risk of colorectal adenoma among Japanese Brazilians
M Pakseresht, NT Miyajima, A Shelton, M Iwasaki, S Tsugane, LL Marchand and S Sharma 1445

- Intakes and sources of isoflavones, lignans, enterolignans, coumestrol and soya-containing foods in the Norfolk arm of the European Prospective Investigation into Cancer and Nutrition (EPIC-Norfolk), from 7 d food diaries, using a newly updated database
AA Mulligan, GGC Kuhnle, MAH Lentjes, V van Scheltinga, NA Powell, A McTaggart, A Bhaniani and K-T Khaw 1454

Epidemiology

- Patterns of weight change and progression to overweight and obesity differ in men and women: implications for research and interventions
RW Kimokoti, PK Newby, P Gona, L Zhu, C McKeon-O'Malley, J Pablo Guzman, RB D'Agostino and BE Millen 1463

- Familial intergenerational and maternal aggregation patterns in nutrient intakes in the Lifeways Cross-Generation Cohort Study
A Shrivastava, C Murrin, MR Sweeney, P Heavey and CC Kelleher, for the Lifeways Cohort Study Steering Group 1476

Nutrition and health

- Snack frequency: associations with healthy and unhealthy food choices
C Hartmann, M Siegrist and K van der Horst 1487

Interventions

- Efficacy of oral iron therapy in improving the developmental outcome of pre-school children with non-anaemic iron deficiency: a systematic review
K Abdullah, T Kendzerska, P Shah, E Uleryk and PC Parkin 1497

- Providing additional money to food-insecure households and its effect on food expenditure: a randomized controlled trial
C Smith, WR Parnell, RC Brown and AR Gray 1507

- Developing a nutrition intervention in children's centres: exploring views of parents in rural/urban settings in the UK
HR Ohly, A Hayter, C Pettinger, H Pikhart, RG Watt and GA Rees 1516

Letters to the editor

- Evaluation of the Food Dudes programme by Upton *et al.*
C Fergus Lowe 1522

- Reply
P Upton, D Upton and C Taylor 1523

Erratum

- Dietary intake in pregnant women in a Spanish Mediterranean area. As good as it is supposed to be? – ERRATUM
CL Rodríguez-Bernal, R Ramon, J Quiles, M Murcia, EM Navarrete-Muñoz, J Vioque, F Ballester and M Rebagliato 1524

Corrigenda

- Association of vitamin D insufficiency with adiposity and metabolic disorders in Brazilian adolescents – Corrigendum
RMS Oliveira, JF Novaes, LM Azeredo, APC Cândido and ICG Leite 1525

- Barriers and facilitators of consumer use of nutrition labels at sit-down restaurant chains – Corrigendum
AH Auchincloss, C Young, AL Davis, S Wasson, M Chilton and V Karamanian 1525

- BMR in a Brazilian adult probability sample: the Nutrition, Physical Activity and Health Survey – Corrigendum
LA Anjos, V Wahrlich and MTL Vasconcellos 1526

- Impact of folic acid fortification of flour on neural tube defects: a systematic review – Corrigendum
C Castillo-Lancellotti, JA Tur and R Uauy 1527
