Semi-automatic defibrillator with instant data, total review

Marquette's 1200 Responder™ semi-automatic defibrillator begins to analyze the patient's heart signals from the instant the power is switched on. It continuously interprets the heart's rhythms, using a sophisticated and field-tested computer analysis program and quickly guides the operator to provide life-saving defibrillation when appropriate.

The 1200 is the only semi-automatic with an **integral** digital printer that provides instant, on-site, "hardcopy" ECGs and a report summary which documents everything that occurs. The report summary enables later-arriving life support teams and hospital staff to better assess the patient's condition immediately.

For comprehensive medical review, the Responder 1200 records 40 minutes of continuous ECG on a reusable, solid-state "data card." It's a beat-by-beat, full disclosure, Holter-type, digital recording. Solid-state recording means there are no moving parts to fail, as can happen with traditional tape recorders. The report summary is also recorded on the card to facilitate efficient case review.

The 1200 plays back all stored data integrally, eliminating the added expense and inconvenience of separate data review equipment.

The Responder 1200... a complete response program for early defibrillation.

For more information, contact your Marquette representative or call us at 1-800-558-5120, ext. 3000.

EMMS

I N S I D E R

Two Ways to Get Your EMS Information

The oldest and most respected EMS newsletter in the nation—formerly published as the *EMS Communicator*—the **EMS INSIDER** has a new look, a new style and a new MONTHLY schedule.

The **EMS INSIDER** uses 21st century technology to bring you late-breaking EMS news, weeks, sometimes months, before it is available elsewhere.

The **EMS INSIDER** covers management issues,

financial topics, new regulations and legislation, controversies and innovations in the field.

**IF YOU ARE AN EMS ADMINISTRATOR,
MANAGER, SUPERVISOR, EDUCATOR,
MEDICAL DIRECTOR OR PHYSICIAN, YOU
CAN'T AFFORD NOT TO BE
AN EMS INSIDER.**

For a limited time, Jems Publishing Company is offering the **EMS INSIDER** at the low price of just \$29.50 a year (12 issues). That's 40 percent off the regular subscription price. Just fill out the coupon below.

There has never been a better time to become an **EMS INSIDER**.

YES, I want to be an EMS INSIDER for only \$29.50 a year (12 issues)

THE IMPACT OF THE FUTURE... ...TODAY!

The portable ventilator you've been waiting for is here - Uni-Vent[™] Model 750!

Imagine a full spectrum critical care/trauma/transport ventilator weighing just 9-lbs. Imagine the versatility of multiple operating modes, alarms and displays. Imagine "smart" interactive features that protect and monitor your patient for the best possible care. Imagine laboratory tested electronic performance to insure consistency and

dependability. Imagine a portable ventilator with Assist-Control, SIMV and an electronic demand valve - all PEEP compensated to reduce your patients' work-of-breathing. Imagine technology that eliminates internal gas consumption and demand flow during exhalation so your patient can receive the maximum benefit from available portable gas sources.

Why settle for less when the Impact of the future is here today?

Uni-Vent[™].
