

TABLE DES MATIERES

---

- frontispice.....	7
- liste des participants.....	9
- préface.....	11
1 - S. VAN DEN BERGH.....	13
The distance scale within the Local Group	
2 - G. A. TAMMANN.....	43
The Hubble constant and the local expansion field.	
3 - M. G. SMITH.....	75
The distance scale beyond the Local Group - A progress report on work in the southern hemisphere	
4 - R. B. TULLY, J. R. FISHER.....	95
21 - cm observations of redshifts and their implications for the distance scale	
5 - V. C. RUBIN.....	119
Is there evidence of anisotropy in the expansion of the universe ?	
6 - S. M. FALL, B. J. T. JONES.....	141
Some remarks concerning the velocity and spatial distributions of galaxies	

- 7 - G. de VAUCOULEURS, W. L. PETERS,  
H. G. CORWIN..... 149  
Le mouvement du soleil par rapport aux  
galaxies les plus proches
- 8 - J. KORMENDY..... 155  
Absence of velocity anisotropy in the direction  
of the Virgo cluster
- 9 - W. G. TIFFT..... 159  
Redshift -magnitude bands in clusters of  
galaxies
- 10 - S. M. SIMKIN..... 167  
The influence of the night sky on velocity  
determinations from optical absorption lines
- 11 - B. M. LEWIS..... 173  
Systematic errors in galaxy redshifts
- 12 - J. P. HUCHRA..... 179  
Comment on photometric evolutionary corrections
- 13 - J. E. GUNN..... 183  
Observational tests in cosmology
- 14 - V. PETROSIAN..... 213  
Surface brightness, standard candles and  $q_0$

- 15 - P. P. KRONBERG.....219  
The 3 C 303 system
- 16 - B. M. TINSLEY.....223  
Galactic evolution and the interpretation of  
cosmological tests
- 17 - S. D. M. WHITE.....243  
Dynamical friction in clusters of galaxies
- 18 - H. SPINRAD, H. E. SMITH.....251  
Spectroscopy and the Hubble diagram of faint  
radio galaxies
- 19 - V. PETROSIAN, M. A. SOLDATE.....273  
Hubble diagram of quasars
- 20 - R. D. DAVIES, A. PEDLAR.....283  
A search for neutral hydrogen in primordial  
protoclusters
- 21 - J. P. HUCHRA.....289  
The mass to light ratio of Markarian galaxies
- 22 - G. de VAUCOULEURS.....301  
Distances de groupes et amas proches et la  
valeur locale du rapport de Hubble.

- 23 - J. KRISTIAN, A. R. SANDAGE, J. A. WESTPHAL.. 309  
The Hubble diagram for red magnitudes of  
bright cluster galaxies
- 24 - M. TARENGHI..... 313  
The Hercules clusters of galaxies
- 25 - I. D. KARACHENTSEV..... 321  
Dynamical state of pairs of galaxies
- 26 - E. L. TURNER..... 337  
Mass-to-light ratios of binary galaxies
- 27 - K. I. KELLERMANN, D. B. SHAFFER..... 347  
Super-light motion in radio sources and its  
implications for the distance scale problem
- 28 - J. J. WITTELS..... 365  
Proper motion evidence against a galactic  
origin for quasars
- 29 - K. CHANG, S. REFSDAL..... 369  
Time delay effects for measuring  
cosmological distances
- 30 - H. ARP..... 377  
Anomalous redshifts in galaxies and quasars
- 31 - E. Ye. KHACHIKIAN..... 411  
The Hubble diagram for Seyfert galaxies  
and related objects.

- 32 - J. HEIDMANN.....427  
Anomalous redshifts in groups of galaxies
- 33 - R. J. ALLEN, W. T. SULLIVAN..... 445  
Westerbork 21-cm observations of the low  
and high velocity HI in Stephan's quintet
- 34 - J. C. PECKER..... 451  
Possible explanations of non cosmological  
redshift
- 35 - L. BOTTINELLI, L. GOUGUENHEIM..... 481  
The  $H_0$  value from luminosity classes and  
21 - cm line observations of galaxies
- 36 - J. HEIDMANN..... 487  
The Hubble constant from Tully-Fisher's  
relation
- 37 - G. S. SHOSTAK..... 489  
H I observations of interacting groups of  
galaxies
- 38 - J. V. NARLIKAR..... 497  
Non-cosmological redshifts
- 39 - M. S. ROBERTS..... 501  
High redshift 21-cm lines
- 40 - A. M. WOLFE..... 511  
21-cm observations of 3 C 286

- 41 - J. TERRELL.....517  
Size limits for expanding light sources
- 42 - A. A. HOAG, E. M. BURBIDGE, H. E. SMITH... 521  
Radio-quiet QSO's in the region of Hercules  
cluster of galaxies
- 43 - P. S. OSMER, M. G. SMITH,..... 525  
The CTIO objective-prism survey and its  
vidicon observations of southern quasars
- 44 - B. PETERSON..... 529  
Observation of distant QSO's.
- 45 - P. CRANE, A. W. HOFFMAN..... 531  
The redshift dependence of galaxy surface  
brightness
- 46 - K. LAKE et R. C. ROEDER..... 541  
White holes of types II and III
- 47 - S. MAVRIDES..... 549  
Anomalous Hubble expansion in inhomogeneous  
cosmological models
- 48 - G. BURBIDGE..... 555  
Arguments and evidence concerning  
non-cosmological redshifts

49 - M. J. REES.....	563
The "conventional" view of redshifts	
50 - P. MORRISON.....	569
Conclusion	
- Discussion générale.....	595
- Table des matières.....	613
