If the blue one protected 4 times better, would you use it?

When a risk arises, it's not a question of if you should protect yourself but how to best protect yourself.

With costly central venous catheter-related infections occurring at a rate of 3% to 12%, and an associated mortality rate of 20%, the risks are real.

ARROWgard Blue™ is your best defense against infection.

CVC catheters with the built-in protection of ARROWgard Blue™ are up to 80% less likely to develop bacteremia than

unprotected catheters! So you can save up to 80% of your CVC patients from the risk of a catheter-related bloodstream infection. And you can save your hospital from the expense of \$7,000 per infection.

To learn about all the benefits of ARROWgard Blue™ catheters, contact your Arrow representative or call 1800 523-8446.

**MARK YOUR CALENDARS
SATURDAY, MARCH 19, 1994
SHEA WORKSHOP**

THE FOURTH ANNUAL MEETING OF

**The Society for
Hospital Epidemiology of America**

March 20-22, 1994

New Orleans Marriott Hotel, New Orleans, Louisiana

The 1994 meeting will include an expanded and enlarged set of "Meet the Consultant" sessions offering an opportunity to meet with specialists in one particular area of interest or concern to you. In conjunction with the meeting for the first time, two satellite workshops will be offered for anyone interested in or desiring specialized knowledge in "Quality Improvement" or in "The Use of Personal Computers in Hospital Epidemiology". The Society has structured the workshops to be held on the afternoon of Saturday, March **19, 1994**. The workshops will be held concurrently at the New Orleans Marriott Hotel starting at **1:00** pm.

1. "Using Quality Management and Clinical Epidemiology to Improve Infection Control Outcomes and Program Performance" (*Presented jointly by the Society for Hospital Epidemiology Of America (SHEA) and the Institute FOR Health-care Improvement*)

This unique program is targeted at physicians and nurses who are responsible for managing infection control programs and are looking for fresh approaches to achieving their goals.

Faculty:

Donald Berwick, M.D., Institute for Health Care Improvement

Emily Rhinehart, R.N., C.I.C., Director of CQI Services, AIG Consultants, Inc.

Donald A. Goldmann, M.D., The Children's Hospital, Boston, MA

Bryan I? Simmons, M.D., Methodist Hospital, Memphis, TN

2. "Personal Computers for Infection Control"

A necessary and innovative introduction and overview of the role personal computers play in infection control. The workshop will allow a structured interactive approach to integrating PC's into your working environment and update you on some specialized software available to assist you.

Faculty:

David R. Reagan, M.D., Quillen College of Medicine, Johnson City, TN

Robert Sherertz, M.D., Bowman Gray School of Medicine, Winston Salem, NC
