New for Fall 2005—

Quintana Roo Archaeology

Edited by Justine M. Shaw and Jennifer P. Mathews

The first volume devoted to the archaeology of Quintana Roo, this book reveals a long tradition of exploration and discovery in the region and an increasingly rich recent history of study. Covering a time span from the Formative period through the early twentieth century, it unfolds a rich archaeological record spanning 2,500 years, depicting the depth and breadth of modern archaeological studies within the state by focusing on recent and ongoing research by Mexican, North American, and European archaeologists

“This collection of informative and thoughtful articles reflects a culture history spanning more than two millennia in the region, and the exciting new theoretical and methodological initiatives being applied by archaeologists to this record. A must for Mayanists and worthwhile for visitors to this part of the Maya world.”

—David A. Freidel, Southern Methodist University
