The AERONAUTICAL Journal

J.C. Hoff and M.V. Cook Aircraft parameter identification using an estimation-before-modelling technique	259
G.T.S. Done Past and future progress in fixed and rotary wing aeroelasticity	269
A.D. Arnott, L. Bernstein and D.G. Petty A note on the pressure drag of a forward-swept-wing-plate junction	281
K.N. Khatri Asymmetric vibration of viscoelastically damped multilayered conical shell	285
S. Elangovan, A. Solaiappan and E. Rathakrishnan Technical Note: Studies on twin elliptic jets	295
O.A. Kandil, S.J. Massey and E.F. Sheta Structural dynamics–CFD interaction for computation of vertical tail buffet	297
M.W. Gracey, A.J. Niven, F.N. Coton, R.A. McD. Galbraith and D. Jiang A correlation indicating incipient dynamic stall	305

Volume 100 Number 997

August/September 1996

Editor Professor J.L. Stollery, CBE, DSc(Eng), DIC, FCGI, FEng, Hon FRAeS

Managing Editor B.F. Baldwin, BSc, MRAeS

Deputy Editor S.M. Penney, BEng, CEng, MRAeS Assistant Editors C.S.C. Male, BSc(Eng), Grad RAeS J.A. Price, BA, Grad RAeS

PUBLISHED MONTHLY EXCEPT JUNE AND AUGUST

Aims and scope

The aims and scope of *The Aeronautical Journal* are intended to reflect the objectives of the Society as expressed in its Charter of Incorporation. Briefly these are to encourage and foster the advancement of all aspects of aeronautical and space science. Thus the topics of the *Journal* include all those which are covered by the various Sections and Groups of the Society such as fluid mechanics and aerodynamics, propulsion, structures and materials, rotorcraft, astronautics and guided flight, dynamics and control, aeromarine technology, aviation medicine, air transport, airworthiness and maintenance, test flying, flight simulation, air law, management studies, history of aviation and manpowered aircraft. Thus papers are solicited on all aspects of research, design and development, construction and operation of aircraft and space vehicles. Papers are also welcomed which review, comprehensively, the results of recent research developments in any of the above topics. For further information on the submission of papers, see Guidelines for Authors, p 280.

Editorial Advisory Board

Chairman: Dr E.W.E. Rogers

Aerodynamics

Professor P.W. Bearman, Department of Aeronautics, Imperial College

Aerospace medicine Air Vice Marshal P. Howard, formerly RAF Institute of Aviation Medicine

Air traffic control and simulation G.C. Howell, former Civil Aviation Authority chief scientist

Airworthiness

R. Ashford, formerly Civil Aviation Authority and the European Joint Aviation Authorities

Avionics and systems

Professor D. McLean, Department of Aeronautics & Astronautics, University of Southampton P.A. Hearne, formerly GEC-Marconi Avionics

Computational fluid mechanics and propulsion Professor P. Stow, *Rolls-Royce*

Flight testing, flight operations and air transport Captain W.D. Lowe, *British Airways*

Maintenance and airworthiness G.B. Ratcliffe, RAeS Airworthiness and Maintenance Committee

Noise, aeroelasticity and fluid mechanics Professor E.G. Broadbent, *Department of Mathematics, Imperial College*

Rotorcraft and structural dynamics Professor D.E.H. Balmford, *formerly of Westland Helicopters*

Space technology R. Gibson, *Inmarsat*

Structures and materials T. Sharples, *Military Aircraft Division, BAe Defence*
