Socrates and Divine Revelation

LEWIS FALLIS

Lewis Fallis offers here close readings of Plato's *Euthyphro* and *Ion*, looking in particular at how Socrates investigates phenomena thought to be divine, or suprarational.

"As the provocative title of Lewis Fallis's book suggests, he seeks to uncover what Plato may have to teach us here and now about the conflict between reason and revelation or between philosophy and faith. To this end, the book offers careful interpretations of two Platonic dialogues not usually

considered in tandem, and it ably demonstrates that the concerns of Plato's Socrates do relate to our own. Among the many virtues of this fine study are the clarity of prose, the gravity of the question that remains front and center, and the impeccable scholarship on display." —Robert C. Bartlett, Boston College

Becoming Socrates

Political Philosophy in Plato's "Parmenides"

ALEX PRIOU

In this commentary on the *Parmenides*, Alex Priou argues that the dialogue is, in actuality, a reflection on politics rather than a work in ontology. By paying careful attention to Parmenides' critique of Socrates' theory of the forms, Priou reveals a political context to the conversation. The need in society for order and good rule includes the need, at a more fundamental level, for an adequate explanation of

being. Recounting here how a young Socrates first learned of the primacy of political philosophy, which would become the hallmark of his life, *Becoming Socrates: Political Philosophy in Plato's "Parmenides"* shows that political philosophy, and not ontology, is "first philosophy."
