Copying. This journal is registered with the Copyright Clearance Center, 21 Congress Street, Salem, MA 01970. Organizations in the USA who are also registered with CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of US Copyright law) subject to payment to CCC of the per-copy fee of \$05.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0022–0299/87/54–01 \$05.00.

ISI Tear Service, 3501 Market Street, Philadelphia, PA 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Back Volumes. Enquiries about the price and availability of back volumes should be sent to the publishers.

Claims for the replacement of journals believed to have been lost in transmission will only be entertained if made immediately upon receipt of the subsequent issue.

Erratum

Keeping quality of milk in relation to the copper content and temperature of pasteurization

BY JOHN E. FORD, MONIKA J. A. SCHRÖDER, MICHAEL A. BLAND, KIM S. BLEASE AND K. JOHN SCOTT Journal of Dairy Research (1986), 53, No. 3, p. 392

Paragraph 3 should read

Oxidative quality of milk is closely linked to the Cu content (King & Dunkley, 1959). However, additions of Cu to diets already adequate in this element had little effect on the Cu content of milk (Elvehjem *et al.* 1929; Menger & Mulder, 1956).
