

Changes to INS Final Program

35th Annual Meeting, Portland, Oregon, February 7–10, 2007

Additional authors should be added to the following abstracts:

1. Pg. 265 M. KRAYBILL, A. EASTVOLD & Y. SUCHY. Trail Making and Simple Choice Reaction Time: Double Dissociation of Motor Speed and Executive Abilities.

Add: Emilie Franchow and Kaycie Kuss

2. Pg. 100 A.K. LAMARRE, B.J. HALLAM & H.H. FELDMAN. Cognitive and Personality Profiles of Individuals At-Risk for Frontotemporal Lobar Dementia with Tau-Negative, Ubiquitin-Immunoreactive Inclusions (FTLD-U).

Add: C. Lindholm, M. Assaly, and I.R. Mackenzie

3. Pg. 12 E.A. ROY. Tool and Action Recognition and Gesture Production in Left Hemisphere Stroke.

Add: K. Kowalski and S. Black

A revised “Results” section should be added to the following abstract:

- Pg. 100 **E. MORGAN, T.J. FERMAN, J.A. LUCAS & N.R. GRAFF-RADFORD. Perceptual Errors on the Boston Naming Test in Dementia with Lewy Bodies.**

Results (should read): Performance on the DRS shows that severity of dementia does not significantly differ between the groups. LBD patients produced significantly more perceptual errors than AD patients. The groups did not differ significantly on the number of semantic errors.

Abstracts that were Accepted but not Presented at the Annual Meeting

WEDNESDAY, FEBRUARY 7, 2007

BECERRIL, KE Cortical Reorganization of Language Areas in Patients with Brain Tumors: fMRI and Neuropsychological Evidence

MUÑOZ-MORENO, J Benefits of a Cognitive Rehabilitation Program on Neurocognitive Impairment in HIV-Infected Patients. Preliminary Findings.

Abstracts that were Accepted but not Presented at the Annual Meeting

THURSDAY, FEBRUARY 8, 2007

BAERWALD, JP Reported Depressive Syptomatology and Verbal-Performance Differences.

RYAN, GP Verbal-Performance Discrepancy and Social Introversion: A Pilot Study Comparing College Students Performance on the WAIS-III and MMPI-2.

PENDERGRASS, J Neural Correlates of Response Inhibition and Reaction Time Variability in Bipolar Disorder.

HASHIMOTO, Y Reversal Learning with Different Type of Stimuli in Patients with Unilateral Hemisphere Damage.

PAGULAYAN, KF Magnitude and Characteristics of Impaired Self-Awareness Among Consecutively Hospitalized Individuals with Traumatic Brain Injury.

FERNÁNDEZ GUINEA, S Set shifting and control cognition in early stages of Alzheimer`s disease: Task switching paradigm.

OGROCKI, PK The Exploration of Behavioral Symptoms in Subtypes of Mild Cognitive Impairment.

KIRSCH-DARROW, L Parkinson`s Disease: Relationship Between Apathy and Dopaminergic Medications.

HEUGTEN, CV Generalisation of Strategy Training Effects in Stroke Patients with Apraxia: There is no place like home?

FRIDAY, FEBRUARY 9, 2007

JACKSON, JC Long-Term Cognitive, Emotional and Functional Outcomes in Trauma ICU Survivors without Intracranial Hemorrhage.

CONSTANTINOU, M Two Case Studies from Cyprus: Neuropsychological Profile Before and after the Appearance of Fronto-Temporal Epileptic Seizures.

BOORSTEIN, HC Regressive Autism: A Distinct Phenotype?

BROCKI, KC Early Concurrent and Longitudinal Symptoms of ADHD and ODD: Relations to Different Types of Inhibitory Control and Working Memory.

ISAAC, L The Relative Contribution of Featural vs. Configural Face Processing Strategies in Williams Syndrome.

Abstracts that were Accepted but not Presented at the Annual Meeting

FRIDAY, FEBRUARY 9, 2007

ALLEN, DN Using the Wechsler Adult Intelligence Scale to Assess Social Cognition.

ALLEN, DN Using the Wechsler Intelligence Scales to Assess Social Cognition in Schizophrenia.

KIXMILLER, JS Long Term Behavioral Management of an Adult with Dandy-Walker Syndrome.

FERNÁNDEZ GUINEA, S Alterations In Verbal Memory And Attentional Deficits In Anxiety Disorders: Posttraumatic Stress Disorder and Panic Disorder.

DUNKIN, J Relationships Between Neuropsychological Deficits and Social Functioning in Depressed and Nondepressed Postmenopausal Women.

GAROLERA, M Executive Impairment and Quality of Life in Schizophrenic Patients.

GAROLERA, M Facial Affect Recognition Deficits and Visual Attention in Schizophrenic Patients.

CHEUNG, AM Mechanisms of Action of Antiepileptic Drugs and Fine Motor Dexterity in Generalized and Localization-related/Focal Epilepsies.

ROSENTHAL, S The Relationship Between Optimism and Neuropsychological Test Performance in Patients with Multiple Sclerosis.

SATURDAY, FEBRUARY 10, 2007

SCHUSTER, JM Students Diagnosed with ADHD Receiving Special Education Services: Predictors of Math Achievement.

LIOSSI, C Sex Specific Neuropsychological and Affective Trajectories after Traumatic Brain Injury.

GRAVER, C Perceived Need for Treatment and its Relationship to Neuropsychological Performance.

MARSHALL, RC Problem Solving by Subjects with and without Diffuse Neurologic Involvement on the Rapid Assessment Problem Solving Test (RAPS).

VERDEJO, AJ Effects Of Polysubstance Abuse And Drug of Choice on Inhibition Measures Taxing Orbitofrontal Dysfunction

VERNEY, SP Executive Functioning in a Combined Heat and Exercise Stress Environment.
