

INSTRUCTIONS TO AUTHORS

Submission of manuscripts Papers may be submitted to any member of the editorial board. Three copies should be sent; originals of figures should *not* be included until the paper has been accepted. Papers may be submitted electronically by sending a LaTeX file to EJAM@UK.AC.OX.VAX; this file should include the figures (line figures only). Electronic communications can also be used for minor corrections and for messages for the editors.

Layout of manuscripts Papers should be typewritten in **double spacing throughout**, on one side of the paper. Please avoid footnotes if possible. Papers must begin with an abstract of not more than 300 words, and they should end with a brief concluding section. The SI system of units must be used throughout.

Illustrations Figures should be drawn in indian ink on good quality white paper. Wherever possible they will be reproduced *with* the author's lettering. A list of captions for figures should be attached separately.

Where appropriate, articles may be illustrated by photographs: high-quality glossy black and white prints are necessary.

References To make alteration easier, we will use the Harvard system of references: papers should be referred to in the text by author's surname and year of publication, and listed in alphabetical order at the end of the main text. Please include the article title in the reference, which should be in the order: author's surname, initials; year in parentheses; article title; journal name, abbreviated in accordance with the *World List of Scientific Periodicals* (4th Edn); volume number (underlined); inclusive page numbers.

The **European Journal of Applied Mathematics** aims to publish papers in all areas of applied mathematics, with especial emphasis on the following.

(i) **The exposition of new mathematical ideas relevant to the modelling and analysis of modern technological processes.**

(ii) **The development of interesting mathematical methods with broad areas of applicability.**

There is no restriction in the areas of applicability or the style of mathematics, although standard mathematical techniques will only be published if they are associated with novel applications or lead to substantial advances in established problem areas.

COPYING

This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, MA 01970. Organisations in the USA who are also registered with the C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0956-7925/91 \$5.00+ .00.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorised to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American branch of Cambridge University Press.
