A bibliographical list of cited references should be headed 'References', placed on a separate sheet, in alphabetical order, and numbered. *Simple* citations should then be made by employing in the text, *rather than by footnote*, the appropriate numerical reference to this list. Discursive footnotes should be numbered consecutively throughout the typescript. *Typescript should not exceed thirty double-spaced pages. A summary abstract of approximately 100 words should accompany each article.* All formulas and equations should be put in such a form as to help minimize the number of printed lines in the journal.
