

THE CHANGING WORLD OF ENT EVERY MONTH IN THE JLO

The Journal of Laryngology and Otology was the first British journal in the ENT field. Since 1887, it has remained the definitive information resource for surgeons, consultants and students. The Journal is run as a charity to promote education and knowledge in all spheres of Laryngology, Rhinology, Otology and related fields.

The JLO is very much an international journal with contributors from around the world and readers from over 80 countries.

The JLO contains main Articles, case reports and short communications from all over the world. Other contents include the quarterly book review, selected abstract service, and every ten years there is a comprehensive index issue published.

The Journal has a very good record of publishing up-to-date information; many articles are published within three months of being accepted for publication. As part of our charitable mandate we sponsor Travelling Fellowships for registrars, Visiting Professors who conduct lecture tours of the UK, and the JLO subsidises our Student price to maximise access by the next generation.

By subscribing to the JLO, you not only gain everyday access to this valuable source of information, but also assist in the promotion of excellence in the ENT domain.

**The Trustees of the TWJ Foundation
invite
Applications for the following four
Fellowships:**

1. A clinical and research Otolaryngological Fellowship in the **University of Cape Town**, tenable at the Groote Schuur Hospital for six months during 1999. The holder will be Assistant to Professor Sean Sellars and will carry out both clinical and research work under his direction. This Fellowship gives wide practical experience in all aspects of the specialty, in addition to otology. The appropriate salary will be paid by the Leon Goldman Charitable Fund and the TWJ Foundation will make a grant of £4,000 to assist with travel expenses.
2. An Otolaryngological and Research Fellowship at the **University of Michigan, Ann Arbor, Michigan, USA**, for six months during 1999, to enable the holder to gain experience in advanced otology and skull base surgery under the supervision of Professor Steven Telian, the Head of the Division of Otolaryngology and Neuro-otology, and to undertake research at the Kresge Hearing and Research Institute under the direction of Professor Josef Miller. The value of the Fellowship will be £13,000.
3. An Otolaryngological Research Fellowship to work in the Coleman/Epstein Laboratory at the **University of California, San Francisco**, for six months during 1999. This Fellowship will offer the holder exposure to ear surgery including cochlear implantation, with the opportunity of attending grand rounds and meetings in the Department of Otolaryngology. The value of this Fellowship is £13,000.
4. **TWJ/Toronto Hospital Fellowship at the University of Toronto**. A six month combined clinical/research Fellowship in neurotology, skull base and advance otologic surgery is offered at the University of Toronto under the supervision of Drs Rutka and Hawke during 1999. Resources include the archival collection from the Ear Pathology Research Laboratory of the University of Toronto, the temporal bone dissection laboratory, the multidisciplinary neurotology clinic of the Toronto Hospital and the Advanced Center for Hearing and Balance Testing. Exposure to functional endoscopic sinus surgery and aspects of sleep medicine is also available. Fellows will have the unique opportunity to travel to Thailand and participate in an outreach programme with the Thai Rural Ear Nose and Throat Foundation. Attendance at all University and hospital based academic rounds and sponsored events will further enrich the Fellow's experience. Extension of this Fellowship with guaranteed match funding from the Toronto end is also possible for upwards of a further six months. The value of this Fellowship is £13,000.

Applicants should send their curriculum vitae together with a letter of support from their Senior Consultant to:

**David Wright, FRCS
Chairman — TWJ Foundation
Mount Alvernia Hospital
Harvey Road
Guildford
Surrey GU1 3LX**

Closing date for applications: 31st August 1998.

ELEVENTH FUNCTIONAL ENDOSCOPIC SINUS SURGERY COURSE

AND

KTP/532 WORKSHOP

CME Accredited by BAO-NHS (23 Points)

Approved by European Laser Association (ELA)

Tyrone County Hospital, Omagh, N. Ireland

8th – 11th September 1998

A two day course in Functional Endoscopic Sinus Surgery with hands on
nose-sinus endoscopy will instruct the participant with an in-depth account of
both morbid and endoscopic anatomy, pathophysiology, diagnosis including
imaging techniques and surgical approach with post operative care.
Complications and how to prevent them will be discussed in detail.

The course is aided by profuse illustrations, video presentations and live
surgery.

The two day KTP/532 workshop aims to instruct the surgeons in both basic
concepts and the varied applications in ENT and Head and Neck surgery
including tissue interactions of various lasers. The latest techniques with KTP
Laser in Tonsillectomy, Functional Endoscopic Sinus Surgery, UP3 and
microlaryngeal surgery are discussed by didactic lectures and video presenta-
tions.

Live Tonsillectomy surgery will be performed with KTP/532 laser on several
patients. The delegates will have 'hands on' training with KTP/532 Laser
system with various animal tissue and pig's larynx with micromanipulator.

The course has a limited number of places and these will be allocated on a first
come first served basis.

Nasal Mast Cells: A Preliminary Report on their Ultrastructure

by A. B. Drake-Lee, F.R.C.S.

The ultrastructural morphology of mast cells in the nose and the adenoids are compared. Normal cells have a very varied morphology with electron dense granules which have scrolls occasionally. Cells from patients with perennial allergic rhinitis show variable degranulation in all areas examined. Few cells were seen in the surface epithelium. Cells from the adenoids had different degrees of degranulation which suggests that mast cell reactions are not a constant feature.
