

## SOUTH WEST CHARTERING

continuing to specialize in Polar Chartering  
Over 40 years providing ice-strengthened ships for expeditions to the Arctic and  
Antarctic — for charter — for purchase  
Our service includes all other types of survey vessels

Contact: Polar Department, South West Chartering (UK) Limited, Suite Five, Lloyds Wharf, Mill  
Street, London SE5 2BA Tel 071 231 8565 Telex 886819 Fax 071 231 3712  
Member of the Baltic Exchange

### ANNOUNCEMENTS

*POLAR RECORD* BACK NUMBERS 1931-87 (1-147)  
are available from Bluntisham Books, Oak House, East  
Street, Bluntisham PE17 3LS, UK, Tel (1487) 840 449.  
Prices: Pre-1982 (1-129) £2.50 each; 1982-85  
(130-141) £5.00 each; 1986-87 (142-47) £10.00  
each. Postage extra.

### ADVERTISING IN *Polar Record*

Quarter page (118 x 81 mm) : £60.00 (US\$120.00)

Half page (240 x 81 mm or 118 x 165) : £90.00  
(US\$180.00)

Whole page (240 mm x 165 mm): £140.00  
(US\$280.00)

Flier (A4 or A5): £140.00 (US\$280.00)

Announcements: £3.00 per column line.

VAT of 17.5% is payable on all UK orders. Please send  
payment or an official order form with your order. There  
are negotiable discounts for running the same advertis-  
ment in three successive issues. We make up adver-  
tisements (from £20.00) and print fliers (from £50.00) by  
arrangement.

## BELHAVEN/SPRI POLAR RESEARCH SERIES

Announcing the first three books on polar topics to be published by  
Belhaven Press in association with Scott Polar Research Institute

### **Satellite remote sensing of polar regions**

**Robert A. Massom**

Describes the capture, processing and use of images taken from satellites of the polar regions and their applications to study of ice and snow, and of high latitude meteorological, biological and oceanic variables. It provides also a reference manual for all satellites from 1960. 288 pages, illustrated, hardback. ISBN 1 85293 179 5. £39.50. June 1991.

### **The Soviet Maritime Arctic**

**Lawson A. Brigham (editor)**

Examines the history, environment, transport systems and strategic importance of the Soviet Union's Arctic territory and sphere of influence. This book also contains material on Soviet Antarctic policy and reprinted documents on environmental and strategic policy. 224 pages, illustrated, hardback. ISBN 1 85293 169 8. £37.50. April 1991.

### **Antarctica and global climate change**

**Collin Harris and Bernard Stonehouse (editors)**

A state-of-knowledge overview of Antarctica's role in a world of changing climates. The contributors are prominent British and New Zealand scientists, whose research spans both East and West Antarctica and the Southern Ocean. 192 pages, illustrated, hardback. ISBN 1 85293 187 6. £33.00. July 1991.

Obtainable by mail order from:  
Scott Polar Research Institute, University of Cambridge  
Lensfield Road, Cambridge CB2 1ER UK.

## THE ANTARCTIC TREATY HANDBOOK

(Seventh edition, October 1990)

IS NOW AVAILABLE FOR SALE FROM THE  
SCOTT POLAR  
RESEARCH INSTITUTE

Edited by Dr J. Heap and published by the British Foreign and Commonwealth Office, the Antarctic Treaty Handbook reproduces material arising from Antarctic Treaty deliberations, including recommendations from consultative meetings and separate instruments dealing with seals, living resources and mineral resources.

Now in four parts (not sold separately):  
Part 1, General measures: Part 2, The Antarctic environment: Part 3, The Antarctic Protected Area System: Part 4, Other components.

Price £20.00 (US\$40.00) including postage and packing. For second class air mail in-

## SPEARMAN BOOKS

# ARCTIC AND ALPINE RESEARCH

INSTITUTE OF ARCTIC AND ALPINE RESEARCH · UNIVERSITY OF COLORADO AT BOULDER

Editor: Mark F. Meier

Managing Editor: Kathleen A. Salzberg

**Arctic and Alpine Research** is a quarterly international journal, now in its twenty-third year. It publishes original research papers, shorter contributions, correspondence, book reviews, and miscellaneous items of information. The subject matter deals with any scientific or cultural aspect of arctic and alpine environments and related topics on subarctic, subalpine, antarctic, subantarctic, and paleoenvironments. Papers are uni- or multidisciplinary but have interdisciplinary appeal. Symposia proceedings and monographs are also published from time to time, including the proceedings of the Comité Arctique International Seventh Conference, Reykjavik, Iceland, September 1986: Restoration and Succession in Circumpolar Arctic Lands (Vol. 19, No. 4, 1987), and Circumpolar Ecosystems in Winter, Churchill, Manitoba, February 1990 (Vol. 23, No. 1, 1991).

Recent issues have included papers on the following topics: Arctic hydrology; permafrost studies; glacier fluctuations; Holocene environments; Inuit use of sea ice; alpine grassland vegetation; lichen growth studies; subalpine forest growth.

Manuscripts in English should be submitted to the Managing Editor. Please write for instructions.

## EDITORIAL ADVISORY BOARD

Terry V. Callaghan  
Grange-over-Sands, U.K.

William Fitzhugh

**Call For Papers**

**WESSEX INSTITUTE  
OF TECHNOLOGY**

Third International Conference on  
***Ice Technology***

11-13 August 1992

MIT, Cambridge, Massachusetts, USA.

Co-Sponsored by:

**Scott Polar Research Institute, Cambridge, UK  
Geophysical Institute, University of Alaska, USA**

There is a great deal of activity at the present time directed towards the exploration, production and transportation of hydrocarbons and other minerals known to exist in the Polar environment. As a result considerable strides are being made in the advancement of ice technology and other ice-related research by oil companies, universities and by government and private establishments to make Polar operations more efficient. Papers are therefore invited on the following topics:

- \* Physical Properties of Ice
- \* Mathematical and Computational Modelling
- \* Ice Experiments and Field Tests
- \* Design and Instrumentation of Polar Vessels and Ice Breakers
- \* Structures in Ice
- \* Navigation in Ice
- \* Ice Management and Control
- \* Ice/Ocean Interaction
- \* Ice/Oil Interaction
- \* Ice Conditions in the Barents Sea
- \* Ice Forecasting
- \* Remote Sensing of Sea Ice
- \* Geotechnical Centrifugal Modelling
- \* Ground Freezing
- \* Aspects for the Safe Operation of Ships in Polar Regions
- \* Human Factors (Crew Fatigue and Survival in Arctic Ships)
- \* Impact of Polar Operations on the Environment
- \* Prevention and Counter-measures for Oil Spills in Ice
- \* Arctic Marine Transportation
- \* Antarctic Research

Papers are invited on the topics indicated above and others following within the scope of the Conference. Abstracts of no more than 250 words should be submitted as soon as possible to:

**Sue Owen:**

**Computational Mechanics Institute, Wessex Institute  
of Technology, Ashurst Lodge, Southampton, UK.**

**Tel: (0703) 293223 Fax: (0703) 292853**

**International Tel: 44 703 293223 International Fax: 44 703 292853**

### **Back Issues**

For vols 1-23 inclusive apply to Bluntisham Books, Oak House, East Street, Bluntisham, Huntingdon, PE17 3LS, UK. For vols 24 onward apply to Cambridge University Press, UK or USA.

### **Advertising**

Prices appear in the advertisements section; for details apply to the Editor or to the publishers.

### **Advice to contributors**

*Polar Record* publishes original articles (2000 to 8000 words) and notes (usually less than 2000 words) of current and historic polar interest. Manuscripts, maps and photographs are accepted on the understanding that they are original, do not infringe copyright, and are not currently being offered elsewhere. Receipt is acknowledged; manuscripts are submitted to referees and any rejected will normally be returned to the author within six to eight weeks. Where the subject matter is appropriate, the Editor is usually prepared to advise authors on ways of making their material acceptable.

### **Presentation**

Typescripts should be double-spaced with 3 cm margins, on one side only of A4 or similar paper. Send two copies and keep one for reference. Give name, affiliation and address of each author on the title page, noting which author the Editor corresponds with. Follow the style of articles and notes in the most recent issue of *Polar Record*.

*Articles* should start with an abstract of 150-250 words and a table of major headings; secondary and tertiary headings are not listed. Indicate in margins where tables and illustrations fit. Footnotes are discouraged; places where they are considered essential are marked in text with a superscript number, and the footnotes are listed at the end before the References.

*Notes* are short articles, generally of less than 2000 words. They do not require an abstract or table of headings, but either the first or the final paragraph should summarize the content.

*References* (essential ones only, please) are cited in text; full references appear in the listing under References at the end; for forms of citations and references see the most recent issue of *Polar Record*. *Authors alone are responsible for the accuracy of their references*. References to privately printed or other unpublished reports and data are not accepted unless copies of the material are freely available from a named library or similar repository. *Tables* should be kept as simple as possible and typed on separate sheets. They will normally be fitted across the single- or double-column page, only exceptionally lengthwise.

*Illustrations*. Drawings, maps and diagrams must be of professional standard, with lettering and numbers pencilled in clearly. Authors may be charged for re-drawing if an illustration is inadequate. They should if possible allow for about one-third reduction in width to fit a column (7.8 cm) or page (16.4 cm). Photographs (black and white only) that add substantially to the material are welcome. Glossy prints with high contrast, about one-third oversize, generally reproduce well.

### **Contributions on disc**

The Editor welcomes contributions on floppy discs. The most suitable format is Apple Macintosh 3.5" disc. Output from a wide variety of word processing packages can be accepted, but in case of doubt, a MacWrite-compatible document should be produced. Diagrams also can be transferred on Macintosh discs. Discs from other microcomputers may be acceptable if the text is in the form of an ASCII file, with no word processing codes. TAB characters are acceptable. Currently, *Polar Record* can accept discs from Acorn BBC and Torch microcomputers, Amstrad PCW series microcomputers and IBM PC compatible machines (3.5" discs). If in doubt, please consult the Editor.

### **Fax**

Contributors and other correspondents are welcome to contact the Editor via Fax (UK) 223 336549

**ISSN 0032-2474**

# POLAR RECORD

VOLUME 28 NUMBER 164 JANUARY 1992

## CONTENTS

### ARTICLES

- First Landsat multispectral scanner images of the Canadian Arctic north of 80°N. M. O. Jeffries, G. J. Reynolds and J. M. Miller p 1
- Economic development in the Kola region, USSR: an overview. V. A. Doiban, M. Pretes and A. V. Sekarev p 7
- Tourists in Antarctica: numbers and trends. D. J. Enzenbacher p 17
- Alaska's subsistence management regimes. R. A. Caulfield p 23
- The quest for provincial status in Yukon Territory. S. Smyth p 33
- Mawson's Antarctic huts and tourism: a case for on-site preservation. J. Hughes p 37
- Scientific investigations of the National Marine Mammal Laboratory, 1990. H. W. Braham p 43
- Geographic distribution of northern peoples in the USSR, 1970 and 1979. G. Knapp p 47
- Focussing an Antarctic research programme: the Australian experience. B. W. Davis p 51

### NOTES

- Feeding of walrus *Odobenus rosmarus* in Svalbard. I. Gjertz and Ø. Wiig p 57
- Battle of North Cape: a reunion. G. Hattersley-Smith p 59
- The annexation of Uruup, 1855. I. R. Stone p 60
- Greenland wants tourism. T. Christensen p 62
- Management of the Antarctic krill fishery. J. P. Croxall, I. Everson and D. G. M. Miller p 64
- Non-government aircraft in the Antarctic 1990/91. C. Swithinbank
- Netherlands scientific research in Antarctica. D. Thompson p 67
- Size and weight of Arctic foxes *Alopex lagopus* from the west Svalbard coast. K. Frajford p 68
- Robert E. Peary: a medical assessment. A. C. Bonga p 71

### CORRESPONDENCE

- Nordic principles in northern research: response to a review. N. D. Broadbent p 73
- Lead poisoning and the Franklin expedition. A. Shirley p 73

### REVIEWS

- The Soviet maritime Arctic. L. Brigham (editor). *Erik Franckx* p 74. Why study Antarctica? P. Beck. *J. Meadows* p 74. The challenge of northern regions. P. Jull and S. Roberts (editors). *Heather Myers* p 74. Unravelling the Franklin mystery: the Inuit testimony. D. Woodman. *Heather Myers* p 75. Satellite remote sensing of polar regions. R. Massom. *Christopher Rapley* p 75. Volcanoes of the Antarctic plate and southern oceans. W. E. LeMasurier and J. W. Thomson (editors). *Bernard Stonehouse* p 76. Nature and policy in Iceland 1400–1800. K. Hastrup. *P. Vitebsky* p 76. The world of pastoralism: herding systems in comparative perspective. J. Galaty and D. L. Johnson (editors). *Piers Vitebsky* p 77. Brief reviews p 77

### IN BRIEF

- New laboratory for McMurdo Station. Antarctic town planning. Canadian Polar Commission. Antarctic krill fishery regulated. Giant Antarctic ice island. Mackenzie Valley vegetation mapping. Falkland Islands merger. International whaling history symposium. Replacement for HMS *Endurance*. p 79

### OBITUARY

- Malcolm Mellor p 80

### SCAR BULLETIN No 104

- Meeting of SCAR Executive Committee 6–9 June 1991, Zürich, Switzerland p 81
- Recommendations adopted by the XVIth Antarctic Treaty Consultative Meeting 7–18 October 1991, Bonn, Germany p 86
