Series B — Applied Mathematics

Volume 25 Part 1
JULY 1983

Special Issue on
WAVES IN FLUIDS

Edited by Roger Grimshaw

Cyclic gravity waves in deep water	
P. J. Bryant	2
Water waves, nonlinear Schrödinger equations and their solutions	
D. H. Peregrine	16
Scattering analysis and synthesis of wave trains	
R. J. Sobey and E. J. Colman	44
The generation of surface waves by an intense cyclone	
F. Viera and V. T. Buchwald	64
Surface-wave interaction with a deeply submerged circular duct	
John W. Miles	84
Interaction of internal waves in a continuous thermocline model	
N. T. Hung and S. A. Maslowe	94
The anti-cyclonic shear wave: a new geophysical wave	
Roger L. Hughes	110
Stationary waves forced by topography in a vertically sheared, stratified rotating fluid	
C. B. Fandry, R. L. Hughes and L. M. Leslie	127
The following papers will appear in subsequent issues:	
Energy intensity of inertial waves in a sphere	
W. W. Wood	
The propagation of small amplitude long waves on the surface of superfluid helium	
R. S. Johnson	

Set by the American Mathematical Society

Printed by Cushing-Malloy, Inc. Ann Arbor, Michigan, U.S.A.

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Information about Series A may be found on the inside back cover.

SERIES B APPLIED MATHEMATICS

This series is published in volumes, comprising four parts, starting with Volume 19 Part I in 1975. From 1980, four parts are published annually. Subscriptions may be arranged through the Business Manager (see inside back cover). The annual cost for 1983 is A\$76 (Members A\$12).

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are welcomed. Authors are encouraged to write an introduction accessible to the whole applied mathematical community. Every effort will be made to publish suitable material with a minimum of delay.

Editor of the Journal, Series B

WILLIAM E. SMITH, School of Mathematics, University of New South Wales, Kensington, N.S.W. 2033 Australia.

Associate Editors

Assistant Editors

J. D. FENTON, W. D. MCKEE, School of Mathematics, University of New South Wales, Kensington, N.S.W. 2033, Australia.

Manuscripts (two copies) for publication should be sent to the editor or to an appropriate associate editor at the address given above. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere. Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Irrespective of the number of authors, 100 free offprints of each paper are provided; additional offprints may be ordered at the expense of the authors.

Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.

Journal of the Australian Mathematical Society, Series B—Applied Mathematics (ISSN 0334-2700) is published quarterly for A\$76 (Members A\$12) per annum by the Australian Mathematical Society, Department of Mathematics, University of Queensland, St. Lucia, Qld. 4067, Australia. Application to mail at second class postage rates is pending at Ann Arbor, Michigan 48106. Postmaster: Send address change notices to Dr V. G. Hart, Journal of the Australian Mathematical Society, Department of Mathematics, University of Queensland, St. Lucia, Qld. 4067, Australia.

Series B -- Applied Mathematics

Volume 25

1983/1984

Part 1 July 1983

Special Issue on

WAVES IN FLUIDS

This issue contains a collection of articles on various aspects of the theory of waves, with particular relevance to geophysical fluid dynamics. It is the second issue of the Journal of the Australian Mathematical Society Series B to be devoted to a single topic. The issue was compiled and edited by Roger Grimshaw, Department of Mathematics, University of Melbourne.
