EXTENDING FIB & SEM CAPABILITIES

## Now is the Time to **UPGRADE** from Basic to Automated In Situ Lift-out

**The AutoProbe™ platform puts you on  
the path for future automation upgrades.**

- ✓ Navigates Along the SEM-FIB X, Y, Z Coordinates
- ✓ Continuous X, Y, Z Travel Over Large Distances
- ✓ Precision Closed Loop Feedback
- ✓ Save and Recall Positions
- ✓ Automation - 3D Image Recognition in the SEM-FIB
- ✓ Change Tips Without Breaking Vacuum
- ✓ Short-Cut™ for Backside Thinning  
and Tomography Samples

**UPGRADE your Model 100.7 Nanomanipulator to an AUTOPROBE™**
