# Invasive Plant Science and Management

*Published quarterly by the Weed Science Society of America*

Antonio DiTommaso, *Editor*

The Weed Science Society of America (WSSA) publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports.

## Associate Editors (Assignment Year)

**Edith B. Allen**, Botany & Plant Sciences Department, University of California, Riverside, CA 92521 (2008)  
**Jacob N. Barney**, School of Plant and Environmental Sciences, Virginia Tech, Blacksburg, VA 24061 (2012)  
**John Cardina**, Department of Horticulture & Crop Science, Ohio State University, Wooster, OH 44691 (2008)  
**Stephen F. Enloe**, Center for Aquatic and Invasive Plants, University of Florida, Gainesville, FL 32653 (2010)  
**Songlin Fei**, Department of Forestry and Natural Resources, Purdue University, West Lafayette, IN 47907 (2015)  
**Guillaume Fried**, Plant Health Laboratory, Anses, 34988 Montferrier-sur-Lez, France (2017)  
**Catherine S. Jarnevich**, US Geological Survey, Fort Collins, CO 80526 (2015)  
**Marie Jasieniuk**, University of California, Davis CA 95616 (2017)  
**Darren J. Kriticos**, CSIRO, Canberra, ACT 2601, Australia (2010)  
**James K. Leary**, Center for Aquatic and Invasive Plants, University of Florida, Gainesville, FL, 32653 (2014)  
**Kelly G. Lyons**, Department of Biology, Trinity University, San Antonio, TX 78212 (2008)  
**Rob J. Richardson**, Department of Crop Science, North Carolina State University, Raleigh, NC 27695 (2014)  
**Steve S. Seefeldt**, NWREC, Washington State University, Mount Vernon, WA 98273 (2014)  
**Ryan M. Wersal**, Minnesota State University, Mankato, Mankato, MN 56001 (2014)

Tracy Candelaria, *Managing Editor*

## Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

*Invasive Plant Science and Management* (ISSN 1939-7291) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It is published quarterly, one volume per year, four issues per year beginning in March.

Membership includes receipt of *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Invasive Plant Science and Management* subscription page at <https://www.cambridge.org/core/journals/invasive-plant-science-and-management/subscribe>; Email: [subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org) in USA, [journals@cambridge.org](mailto:journals@cambridge.org) outside USA.

*Invasive Plant Science and Management* publishes four times a year in March, June, September, and December. Annual institutional electronic subscription rates: US \$410.00; UK £285.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ipsm>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Invasive Plant Science and Management* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

# INVASIVE PLANT SCIENCE AND MANAGEMENT

## Table of Contents

### Biology of Invasive Plants

- Biology of Invasive Plants 2. *Lycium ferocissimum* Miers. Michael R. Noble, Robin J. Adair and Kylie B. Ireland ..... 41

### Research Articles

- Identifying high-impact invasive plants likely to shift into northern New England with climate change. William Coville, Bridget J. Griffin and Bethany A. Bradley ..... 57
- Assessing vulnerability and resistance to plant invasions: a native community perspective. Inés Ibáñez, Gang Liu, Laís Petri, Sam Schaffer-Morrison and Sheila Schueller ..... 64
- Invasion by *Ammophila arenaria* alters soil chemistry, leaving lasting legacy effects on restored coastal dunes in California. Lorraine S. Parsons and Benjamin H. Becker ..... 75
- Using the nuclear *LEAFY* gene to reconstruct phylogenetic relationships among invasive knotweed (*Reynoutria*, Polygonaceae) populations. Nicholas P. Tippery, Alyssa L. Olson and Jenni L. Wendtlandt ..... 92
- Do applications of systemic herbicides when green fruit are present prevent seed production or viability of garlic mustard (*Alliaria petiolata*)? Leo Roth, José Luiz C. S. Dias, Christopher Evans, Kevin Rohling and Mark Renz ..... 101
- The use of a herbicide as a tool to increase livestock consumption of medusahead (*Taeniatherum caput-medusae*). Clinton A. Stonecipher, Casey Spackman, Kip E. Panter and Juan J. Villalba ..... 106
- Refining tree size and dose–response functions for control of invasive *Pinus contorta*. Carol A. Rolando, Brian Richardson, Thomas S. H. Paul and Chanatda Somchit ..... 115

### Case Study

- Planting native trees to restore riparian forests increases biotic resistance to nonnative plant invasions. Chad F. Hammer and John S. Gunn ..... 126
