

THE EDINBURGH MATHEMATICAL SOCIETY

The Edinburgh Mathematical Society was instituted in 1883 for “the promotion and extension of Mathematical Science, Pure and Applied”.

Members may subscribe to the *Proceedings* at a reduced rate. Further information about membership can be obtained from the Secretary.

The Society’s address is

The Edinburgh Mathematical Society
James Clerk Maxwell Building
The King’s Buildings
Edinburgh EH9 3JZ

Submission of papers

Papers to be considered for publication should be sent to the Secretary or to an Editor. Manuscripts (2 copies) should be typewritten on A4 paper with double spacing and generous margins. The style and arrangement should conform to current practice in the *Proceedings*. Each manuscript should contain a short abstract of not more than 200 words and also a primary classification number from the American Mathematical Society’s 1990 Mathematics Subject Classification Scheme. References, including titles of papers, should be given in the form adopted by *Mathematical Reviews*, footnotes being avoided if possible. Figures should be separated from the text and lettered, ready for photographic reduction; their intended location should be clearly indicated. Manuscripts which are not suitable for submission to the printer will not be accepted. Authors are advised to retain a copy of any material submitted as the Society cannot accept responsibility for any loss.

A proof is supplied once. Authors are particularly requested to correct and return the proof promptly. Excessive corrections may be charged to authors. Fifty free offprints, and additional copies at cost, will be supplied if ordered on a form returned with the proof.

Addresses of editors

C. M. Campbell
Mathematical Institute
University of St Andrews
North Haugh
St Andrews KY16 9SS

A. M. Etheridge
School of Mathematical Sciences
Queen Mary & Westfield College
Mile End Road
London E1 4NS

A. A. Lacey
Department of Mathematics
Heriot-Watt University
Riccarton
Edinburgh EH14 4AS

C. Maclachlan
Department of Mathematical Sciences
University of Aberdeen
Edward Wright Building
Dunbar Street
Aberdeen AB9 2TY

L. O’Carroll
Department of Mathematics and Statistics

Proceedings of the Edinburgh Mathematical Society

VOLUME 40 (SERIES II), PART 1

FEBRUARY 1997

Two more representation problems <i>Anders Brøgger and Richard K. Guy</i>	1
Groups generated by elements with rational fixed points <i>A. W. Mason</i>	19
The Frattini p-subalgebra of a solvable Lie p-algebra <i>Mark Lincob and David Towers</i>	31
Weighted spaces of harmonic and holomorphic functions: sequence space representations and projective descriptions <i>Paivi Mattila, Levo Saksman and Jari Taskinen</i>	41
On joins with group congruences <i>P. M. Edwards</i>	63
Classifications of 2-complexes whose finite fundamental group is that of a 3-manifold <i>E. Rudolf Best, M. Paul Latilous and Nancy Waller</i>	69
Space sextic curves with six bitangents, and some geometry of the diagonal cubic surface <i>R. H. Dye</i>	85
Modularity in Lie algebras <i>K. Bowman and V. R. Varca</i>	99
Effective computation of the Gelfand-Kirillov dimension <i>José L. Bueso, E. J. Castro Jimenez and Pascual Jara</i>	111
A note on function spaces generated by Rademacher series <i>Giuseppe P. Curbera</i>	119
A time-like surface in Minkowski 3-space which contains pseudocircles <i>Shinichi Uemura and Akihiro Takasama</i>	127
A note on the Gaussian cardinal-interpolation operator <i>N. Sivakumara</i>	137
The Bourgain algebra of a nest algebra <i>Timothy G. Leeman</i>	151
Comments on some inequalities of Pearce and Pecarić <i>Herst Al. et</i>	167
Essentially defined derivations on semisimple Banach algebras <i>A. R. Villena</i>	175
Weakly compact multilinear mappings <i>Richard M. Aron and Pablo Galindo</i>	181
A note on weighted maximal inequalities <i>Qinsheng Lai</i>	193
Book Reviews	207
