Weed Science

Journal of the Weed Science Society of America

Volume 64, Supplement, 2016

Human Dimensions of Herbicide Resistance. <i>Sarah Ward</i>	551
The “Wicked” Nature of the Herbicide Resistance Problem. <i>David R. Shaw</i>	552
Understanding Weed Resistance as a Wicked Problem to Improve Weed Management Decisions. <i>Raymond A. Jussaume, Jr. and David Ervin</i>	559
Diverse Approaches to Herbicide-Resistant Weed Management. <i>Micheal D. K. Owen</i>	570
Economic Barriers to Herbicide-Resistance Management. <i>Terrance M. Hurley and George Frisvold</i>	585
Economic Returns to Herbicide Resistance Management in the Short and Long Run: The Role of Neighbor Effects. <i>Michael Livingston, Jorge Fernandez-Cornejo, and George B. Frisvold</i>	595
Community-Based Approaches to Herbicide-Resistant Weed Management: Lessons from Science and Practice. <i>David E. Ervin and George B. Frisvold</i>	609
Carrots and Sticks: Incentives and Regulations for Herbicide Resistance Management and Changing Behavior. <i>Michael Barrett, John Soteris, and David Shaw</i>	627
A New Approach to Weed Management to Mitigate Herbicide Resistance in Argentina. <i>Claudio Rubione and Sarah M. Ward</i>	641
Exploring the Potential for a Regulatory Change to Encourage Diversity in Herbicide Use. <i>Stephen B. Powles and Todd A. Gaines</i>	649
Rethinking Outreach: Collaboration Is Key for Herbicide-Resistance Management. <i>Amy Asmus and Jill Schroeder</i>	655
Call to Action on Herbicide Resistance Management. <i>Harold D. Coble and Jill Schroeder</i>	661
