**FRAUD AND MISCONDUCT IN  
MEDICAL RESEARCH**

*Edited by Stephen Lock and Frank Wells*

Fraud exists, both in academic medical research and in drug trials in general practice. This book sets out the evidence, reviewing events since 1975 when the first notorious case of fraud became public knowledge. The problem is viewed from many perspectives, with contributions from a general practitioner, head of an academic unit, contract research company director, statistician, editor and lawyer. Together, their information provides a compelling account of the extent to which fraud and misconduct have been and continue to be practised in medicine. *Fraud and Misconduct in Medical Research* is a valuable practical text for all researchers – and ultimately anyone who practises medicine.

**SURGICAL ROOTS & BRANCHES**

**Sir Reginald Murley**

When Sir Reginald Murley became president of the Royal College of Surgeons in July 1977 he was described in the *Daily Telegraph* as a "redoubtable standard bearer" and as "one of the dwindling number of old style 'surgical characters.'" In *Surgical Roots & Branches* he gives a lively account of the development of this character.

**FESTINA LENTE – A  
PSYCHIATRIC ODYSSEY**

**Henry R Rollin**

Henry Rollin insists that *Festina Lente* is "in no way an autobiography. I prefer to regard it essentially as an history of psychiatry during the past half century as seen by one who has been witness to and played some small part in the shaping of events."

Sinclair was intent on a career in surgery when he graduated from St Andrew's University but fate, mainly in the shape of the second world war, decreed otherwise.
