Observation Medicine

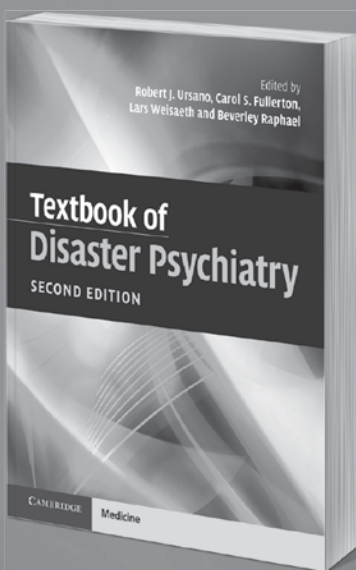

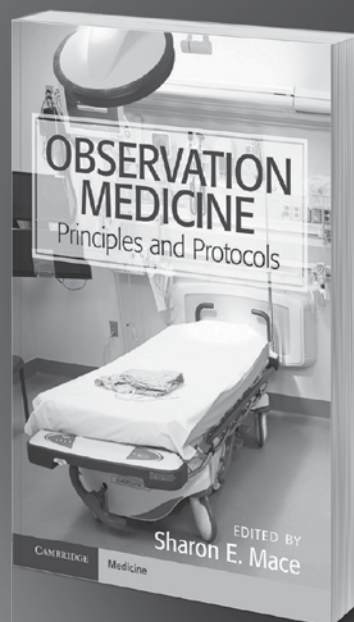

Principles and Protocols

Sharon Mace, *Department of Emergency Medicine, Cleveland Clinic, Ohio*

April 2017 / 9781107022348 / Hardback / \$105.00 / £64.99

Using sample administrative and clinical protocols that any hospital can use, this book gives a detailed account of how to set up and run an observation unit and reviews all medical conditions in which observation medicine may be beneficial. In addition to clinical topics such as improving patient outcomes and avoiding readmissions, it also includes practical topics such as design, staffing, and daily operations; fiscal aspects, such as coding, billing, and reimbursement; regulatory concerns, such as aligning case management and utilization review with observation; nursing considerations; and more. The future of observation medicine, and how it can help solve the healthcare crisis from costs to access, is also discussed. Although based on US practices, this book is also applicable to an international audience, and contains instructions for implementing observation in any setting or locale and in any type of hospital or other appropriate facility.

- Contains clinical protocols for diseases/conditions that may be managed by observation medicine, which is an up-and-coming solution to the crisis of costs and access to emergency healthcare
- Contains administrative protocols and covers the financial and business aspects of running an observation unit
- Offers an international perspective, with practical methods for implementing observation medicine in any location and with any type of resources, staffing, and education

Textbook of Disaster Psychiatry

2nd Edition

Editors: Robert J. Ursano, *Uniformed Services University*
 Carol S. Fullerton, *Uniformed Services University of the Health Sciences, Maryland*
 Lars Weisaeth, *Universitetet i Oslo*
 Beverley Raphael, *Australian National University, Canberra*

May 2017 / Hardback / 9781107138490 / \$105.00 / £84.99

Covering both natural and man-made scenarios including war and terrorism, the *Textbook of Disaster Psychiatry* is a vital international reference for medical professionals, community leaders and disaster responders a decade after its initial publication. Spanning a decade of advances in disaster psychiatry, this new and updated second edition brings together the views of current international experts to offer a cutting-edge comprehensive review of the psychological, biological and social responses to disaster, in order to help prepare, react and aid effective recovery. Topics range from the epidemiology of disaster response, disaster ecology, the neurobiology of disaster exposure, to socio-cultural issues, early intervention and consultation-liaison care for injured victims. The role of non-governmental organizations, workplace policies and the implications for public health planning at both an individual and community level are also addressed.

- The comprehensive examination of disaster and its impact gives the book both clinical and public health relevance
- The text has been updated to cover a decade of advances, leading to more effective approaches to preparation, treatment, intervention and therefore recovery
- Concepts and approaches are applied to worldwide needs, resulting in a text relevant to real life practice

POSTMASTER: Send address changes in the USA, Canada, and Mexico to *Prehospital and Disaster Medicine*, Cambridge University Press, Journals Fulfillment Department, One Liberty Plaza, 20th floor, New York, NY 10006. Send address changes elsewhere to *Prehospital and Disaster Medicine*, Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, England.

Prehospital and Disaster Medicine (Print ISSN 1049-023X; Electronic ISSN 1945-1938) is published bimonthly in the months of February, April, June, August, October, and December for the World Association for Disaster and Emergency Medicine. by Cambridge University Press, One Liberty Plaza, 20th floor, New York, NY 10006. Periodicals postage rate paid at New York, NY, and at additional mailing offices. PDM incorporates the Journal of the World Association for Emergency and Disaster Medicine and the Journal of Prehospital Medicine.

Aims and Scope: The principal mission of *Prehospital and Disaster Medicine* is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster medicine, emergency public health and safety, and disaster mental health and psychosocial support.

Submissions: All manuscripts must be submitted through the Journal's online submission platform, ScholarOne Manuscripts, at <http://mc.manuscriptcentral.com/pdm>. Please review the Author Instructions and Author Checklist available online before finalizing a submission. All studies that include human subjects must be submitted for review or exemption to a formal human subjects ethics committee.

2019 Subscription Information: Institutions print and electronic: US\$803.00 in the USA, Canada, and Mexico; UK£490.00+VAT elsewhere. Institutions electronic only: US\$592.00 in the USA, Canada, and Mexico; UK£363.00+VAT elsewhere. Individuals print and electronic: US\$234.00 in the USA, Canada, and Mexico; UK£143.00+VAT elsewhere. Individuals electronic only: US\$170.00 in the USA, Canada, and Mexico; UK£97.00+VAT elsewhere. Single Part: US\$154.00 in the USA, Canada, and Mexico; UK£94.00+VAT elsewhere. Prices include postage and insurance. Airmail or registered mail is extra. Back volume prices are available upon request. Claims of non-receipt or damaged issues must be filed within three months of cover date.

Indexing: PDM is covered by Clarivate Analytics services and indexed and abstracted in the Science Citation Index (also known as SciSearch®) and the Journal Citation Reports/Science Edition. PDM is comprehensively indexed by the US National Library of Medicine (MEDLINE), Scopus®, Cumulative Index to Nursing and Allied Health (CINAHL), and Health Star Cumulative Index. Abstracts and search capability available at <https://www.cambridge.org/core/journals/prehospital-and-disaster-medicine>.

Statement of Peer Review Policy: PDM is a signatory with the International Committee of Medical Journal Editors (ICMJE) and the Committee On Publication Ethics (COPE). All scientific papers published in PDM are submitted to subject content and methods experts for peer review. Authors and reviewers are blinded (not aware of the identity of each other). Peer reviewers must declare that there is not a conflict of interest with any manuscript they agree to review. Peer review is accomplished by means of a standard scoring system and specific comments, the results and contents of which are returned to authors for their review.
