TEMPORAL BONE SURGICAL DISSECTION COURSES

OFFERED BY

THE DEPARTMENT OF OTOLARYNGOLOGY

THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL, ANN ARBOR, MICHIGAN

COURSE DIRECTOR: STEVEN TELIAN, M.D.

1993: 3-7 May, 24-28 May, 18-22 October, 8-12 November

Intensive one-week courses emphasize the surgical and anatomical approaches to the temporal bone, and are presented in a manner relevant for the otologic surgeon, utilizing lectures, videotapes, and dissection.

Mornings and afternoons are spent in the dissection laboratory, giving extensive drilling experience in temporal bone anatomy and surgical techniques. All instruments and high-speed handpieces will be provided.

Course fee: Physicians \$1,000; Residents \$850.

ANNOUNCEMENT

11th INTERNATIONAL COURSE IN FUNCTIONAL CORRECTIVE NASAL SURGERY

August 29 through September 3, 1993, Utrecht, The Netherlands

From August 29 –September 3, 1993 a course in functional corrective nasal surgery will be given at the University of Utrecht, The Netherlands, under the direction of Professor E. H. Huizing. The course will consist of lectures, TV-demonstrations, cadaver dissection and live TV-surgery.

Faculty: Professor W. Pirsig, (Ulm), Professor S. Hellmich (Dortmund), Professor E. B. Kern (Rochester), Professor G. Rettinger (Erlangen), Dr A. F. van Olphen (Utrecht), Dr J. A. M. de Groot (Utrecht) and the Staff of the Department of O.R.L. of the Utrecht University Hospital.

Language : English

Information: Professor Dr E. H. Huizing

 TWJ FOUNDATION

THE TRUSTEES OF THE TWJ FOUNDATION INVITE APPLICATIONS
 for
 AN OTOLOGICAL RESEARCH AND CLINICAL FELLOWSHIP
 at
 THE COLEMAN LABORATORY, SAN FRANCISCO
 IN THE UNIVERSITY OF CALIFORNIA
 for
 SIX MONTHS DURING 1994

The main emphasis will be on research projects in the Coleman Laboratory under the supervision of Professor Michael Merzenich but the holder will also have the opportunity to observe clinical work in the Department of Otolaryngology as the appointment has the approval of Dr Schindler.

Applicants must be Fellows of one of the Royal Colleges of Surgeons and a Senior Registrar in Otolaryngology in an appointment recognised for Higher Surgical Training in the United Kingdom or the Republic of Ireland.

Further details concerning applications should be obtained **now** from

The Trustees of the TWJ Foundation
 Courtlands, 61 Kingswood Firs,
 Grayshott, Hindhead,
 Surrey GU26 6ER

The closing date for formal applications will be
 Saturday, 6th March 1993

**XV. WORLD CONGRESS OF OTORHINOLARYNGOLOGY
 HEAD AND NECK SURGERY
 20 - 25 June, 1993
 İSTANBUL - TÜRKİYE**

Under the Auspices of the International Federation of Otorhinolaryngological Societies (IFOS)

Scientific Programme

Five Plenary Sessions, Forty Round Tables and Eight IFOS Standing Committee Panels

Five lectures, Workshops, Instructional Sessions

V. World Video and Film Festival of Otorhinolaryngology

Art Festival

Scientific and Trade Exhibition

For further information please contact :

Tahir Altuğ (General Secretary),

 P.O. Box. 19 Cerrahpaşa 34303 İstanbul /Türkiye
 Telephone and Fax : (90 - 1) 258 54 55

BASIC SCIENCE CLASS FOR PART I DLO

22 March–2 April 1993

This two week, full-time course includes tutorials, practical demonstrations in Anatomy and Physiology and lectures on subjects appropriate to the Part I examination.

Course tutor: Dr K. M. Backhouse, O.B.E.

Course fee: £335 (meals and refreshments *not* included)

To secure a place please complete the enclosed application form and return with either a £50 deposit or full fees to:

Administration
The Institute of Laryngology and Otology
330/332 Gray's Inn Road
London WC1X 8EE
Tel. 071-837-8855 Ext. 4214 or 4218
Fax. 071-837-9279

PRACTICAL REVISION CLASS FOR PART II DLO

19–28 April 1993

This eight day, full-time course is for students well advanced in preparation for the part II examination. It includes demonstrations of selected clinical cases, viva voce examinations and lectures on appropriate examination topics.

Course tutor: Valerie Lund

Course fee: £375 (meals and refreshments *not* included)

To secure a place please complete the enclosed application form and return with either a £50 deposit or full fees to:

Administration
The Institute of Laryngology and Otology
330/332 Gray's Inn Road
London WC1X 8EE

GLASGOW TEMPORAL BONE COURSES

41st Course—24, 25 and 26 March, 1993

42nd Course—6, 7 and 8 October, 1993

AT GLASGOW ROYAL INFIRMARY

Tutors: Mr Andrew Baxter, F.R.C.S., Professor George G. Browning, M.D., F.R.C.S., Mr Alastair M. Pettigrew, F.R.C.S.

The courses are primarily designed for otologists in training but they will be of interest to more experience surgeons. Tutorials on otological techniques and results together with histopathology of the temporal bone will complement the main component of the course which is supervised dissection of the temporal bone.

The courses are approved for training in the U.K.

Further details from:

Mr Alastair M. Pettigrew, F.R.C.S.
Stirling Royal Infirmary
Stirling FK8 2AU
United Kingdom
Tel. 0786 473151 Extn. 401

Daniel Brasnu, M.D.**

The third international symposium brings together outstanding faculty from the United States and European communities. The objectives of this course are to explore the most recent developments in Otolaryngology—Head and Neck Surgery and to place them in perspective regarding use for diagnosis and therapy. The talks will be designed to give both American and European views on such areas as skull base surgery, otology, pediatric otolaryngology, laryngology and voice disorders, neoplasia of the head and neck, facial-plastic surgery, endoscopic sinus surgery and new technology. The format will be by presentations and open question and answer sessions. The conference will be held in St. Thomas's Hospital in London.

REGISTRATION INFORMATION:

Tuition Fee, \$450 (U.S.). Please make check payable to Harvard Medical School and mail with application form to Harvard MED-CME, P.O. Box 825, Boston, MA 02117. All foreign payments must be made by a draft on a United States Bank. Inquiries should be directed to the above address or by phone: (617) 432-1525, Monday-Friday, 10 a.m. to 4.00 p.m. (Eastern Time).

REFUND POLICY:

A handling fee of \$45 is deducted for cancellation. Tuition refund request must be received by mail one week prior to the course. No refund will be made thereafter.

TRAVEL:

Rooms have been reserved for registrants at various hotels in London. Upon receipt of your registration, information regarding accommodations and reduced airplane flights will be forwarded.

Instructions to Authors

Review Articles. Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Pathology. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Radiology. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'**Silence in Court**'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 0483 451874.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.
