## **Nederland in de wereld 1870 - 1950**

Opstellen over buitenlandse en koloniale politiek,  
aangeboden aan Dr. N. Bootsma  
Nijmegen 1988 (IX + 242 pp.)

The study of Dutch colonial and foreign policy has for many years been at the centre of historical research of a group of Nijmegen students.

Dr. N. Bootsma belonged to that group. On the occasion of his retirement from Nijmegen University this collection of essays is presented to him. They refer to Dutch policies in the years between 1870 and 1950 and to different countries and parts of the world. They are all based on primary sources and written in Dutch.
