EDITOR'S NOTE

Because the new and sometimes difficult data being reported in this Memoir have passed through many hands, and were assembled under adverse conditions, there is more than normal danger of error in the tables and manuscripts. Of some of these errors we are already aware.

Readers who discover *errata*, particularly in Table 1, are requested to notify the Editor immediately, so that one final list of such *errata* may be distributed with an early issue of *American Antiquity*.
