

Special Offer to Medical Libraries and Institutions

Now is the Time to
Get a Complete Set of
Prehospital and Disaster Medicine

We have a limited supply of back issues of *Prehospital and Disaster Medicine* (PDM) in storage. Therefore, we are offering you a nearly complete set of Journals for the cost of shipping the set to you. We will do this if you agree to subscribe to PDM for a minimum period of three years at the price of [US]\$400/year (plus shipping: institutional rate). Sets will be distributed on a first-come, first-serve basis.

If you are interested, please send an email containing your address and billing information to pdm@medicine.wisc.edu or fax it to (+1) (608) 265-3037. We will send your institution all of the issues we have left in stock. Thus, you help us and we help you.

Thank you in advance for your interest.

Bringing Simulation to Life

SimMan®

There is a growing awareness that health care is behind other high risk operations in its attention to ensuring basic safety and that there is a need to grasp the scale of the problem ^(1,2).

Use of patient simulation is considered an important part of the solution as many scenarios can be presented including uncommon but critical situations where a rapid response is needed. Errors can be allowed to occur and reach their conclusion without any risk to a patient. Team member interactions and leadership can also be explored and developed.

Two manikin-based simulators from Laerdal, SimMan® and AirMan®, represent a new generation of affordable and portable solutions to meet these needs.
