Contents

PART 1 (AUGUST 1960)

	PAGE
WIDDOWSON, F. V., PENNY, A. and COOKE, G. W. The value of calcium nitrate and urea for main-crop potatoes and kale	1
BREMNER, J. M. Determination of nitrogen in soil by the Kjeldahl method. (With One Text-figure)	11
BUNTING, A. H. and ANDERSON, B. Growth and nutrient uptake of Natal Common groundnuts in Tanganyika. (With Two Text-figures)	35
WAHHAB, A., KHAN, MAHMUD and ISHAQ, M. Nitrification of urea and its loss through volatilization of ammonia under different soil conditions	47
WIDDOWSON, F. V. and SHAW, K. Comparisons of casein and formalized casein with ammonium sulphate, calcium nitrate and urea for Italian ryegrass	53
MARCH, B. E., GOUDIE, C. and BIELY, JACOB. The effect of management factors on the intestinal bacteria and the growth rate of chicks. (With Two Text-figures)	61
DUIJN, C. VAN, Jnr. The effect of mixing ejaculates from different bulls on motility characteristics and acid production of the spermatozoa in a constant environment	69
TAYLER, J. C. and RUDMAN, J. E. The production of fattening cattle and extension of autumn grazing following three rates of application of nitrogenous fertilizer to a rye-grass/white clover sward. (With Four Text-figures)	75
CAMPBELL, R. C., HANCOCK, J. L. and SHAW, I. G. Cytological characteristics and fertilizing capacity of bull spermatozoa. (With One Text-figure)	91
MOUNT, L. E. The influence of huddling and body size on the metabolic rate of the young pig. (With Three Text-figures)	101
GARNER, R. J., JONES, H. G. and EKMAN, L. Fission products and the dairy cow. I. The fate of orally administered cerium-144. (With One Text-figure)	107
TANEJA, G. C. Sweating in cattle. VI. Density of sweat glands and its relationship with cutaneous evaporation. (With Plate 1)	109
LEWIS, D. Ammonia toxicity in the ruminant. (With Nine Text-figures)	111
WALKER, C. A. The skin characters of some breeds of indigenous African cattle	119
WALKER, C. A. The population, morphology and evolutionary trends of the apocrine glands of African indigenous cattle. (With Two Text-figures)	123
WARDROP, I. D. The post-natal growth of the visceral organs of the lamb. II. The effect of diet on growth rate, with particular reference to the parts of the alimentary tract	127
WARDROP, I. D., TRIBE, D. E. and COOMBE, J. B. An experimental study of the early weaning of lambs	133

	PAGE
KENT, SUSAN E., REID, T. F. and WORDEN, ALASTAIR, N. The feeding of calcium lactate to laying hens	137
BOLTON, W. The digestibility of mash and pellets by chicks	141
PART 2 (OCTOBER 1960)	
FERGUSON, H., KORDOFANI, A. Y. and ROBERTS, P. The effect of fallow hoeing on cotton yields in rotations in the Sudan Gezira. (With Seven Text-figures)	143
DAVEY, L. A., CHEESEMAN, G. C. and BRIGGS, C. A. E. Evaluation of an improved artificial rumen designed for continuous control during prolonged operation. (With Ten Text-figures and Plate 1)	155
JONES, D. J. C. Studies of the effects of manuring and season on the yield and chemical composition of the cattle cabbage. (With One Text-figure)	165
BRAUDE, R., TOWNSEND, M. JILL, HARRINGTON, G. and ROWELL, J. G. Effects of different protein contents in the rations of growing-fattening pigs	175
ALIM, K. A. Reproductive rates and milk yield of Kenana cattle in Sudan	183
RAW, F. Observations of the effect of hexoestrol on earthworms and other soil invertebrates	189
FLUX, D. S., BUTLER, G. W., RAE, A. L. and BROUGHAM, R. W. Relationship between levels of iodine and cyanogenetic glucoside in pasture and the productive performance of sheep	191
BROSTER, W. H., BALCH, C. C., BARTLETT, S. and CAMPLING, R. C. The value of ammoniated sugar beet pulp for dairy cows. (With One Text-figure)	197
BOLTON, W. and MURTY, V. N. The effect of supplemental fat on the digestibility of the carbohydrates in compounded poultry diets	203
BROOKES, A. J. and HARRINGTON, G. Studies in beef production. II. The estimation of live weight of beef steers from chest girth and other body measurements	207
LAKSESVELA, B. The potency of balancing interactions between dietary proteins. Chick experiments on the significance for prior judgement and use of herring proteins. (With One Text-figure)	215
MUKHERJEE, D. P. and DOTT, H. M. Effects of egg-yolk citrate and egg-yolk-glycine dilutors on the morphology of bovine spermatozoa. (With Plates 1 and 2)	225
LAMPKIN, G. H. and LAMPKIN, K. Studies on the production of beef from zebu cattle in East Africa. I. A description of the Muguga herd. (With Plate 1)	229
LAMPKIN, K. and LAMPKIN, G. H. Studies on the production of beef from zebu cattle in East Africa. II. Milk production in suckled cows and its effect on calf growth. (With Two Text-figures)	233
BOLTON, W. A comparison of the efficiency of food utilization for egg production of some inbred lines of Brown Leghorn fowls. (With Five Text-figures)	241

	PAGE
FINDLAY, J. D. and JENKINSON, D. MCEWAN. The morphology of bovine sweat glands and the effect of heat on the sweat glands of the Ayrshire calf. (With Plate 1)	247
CASTLE, M. E. and HOLMES, W. The intensive production of herbage for crop-drying. VII. The effect of further continued massive applications of nitrogen with and without phosphate and potash on the yield of grassland herbage. (With One Text-figure)	251
HOLDER, J. M. Observations on the grazing behaviour of lactating dairy cattle in a sub-tropical environment	261
TRAIL, J. C. M. and CASLEY, D. J. L. The influence of aureomycin on chick-rearing results using East African feedingstuffs with special reference to importance of experimental design for accurate statistical analysis	269
MILBOURN, G. M. The uptake of radioactive strontium by crops under field conditions in the United Kingdom. (With Five Text-figures)	273
GARNER, R. J., SANSOM, B. F. and JONES, H. G. Fission products and the dairy cow. III. Transfer of ¹³¹ Iodine to milk following single and daily dosing. (With Five Text-figures)	283

PART 3 (NOVEMBER 1960)

SYMINGTON, R. B. Studies on the adaptability of three breeds of sheep to a tropical environment modified by altitude. I. The annual fluctuation in body temperature and body temperature increase between 6.30 a.m. and 12.30 p.m. (With One Text-figure)	287
SYMINGTON, R. B. Studies on the adaptability of three breeds of sheep to a tropical environment modified by altitude. II. Responses in body, skin and coat temperatures, cardio-respiratory frequencies and rate of moisture secretion of ewes to the diurnal fluctuation in ambient temperature during the hottest part of the year. (With One Text-figure)	295
SYMINGTON, R. B. Studies on the adaptability of three breeds of sheep to a tropical environment modified by altitude. III. The response of mature and young rams to a thermal burden induced by exercise. (With One Text-figure)	303
SYMINGTON, R. B. Studies on the adaptability of three breeds of sheep to a tropical environment modified by altitude. IV. Role of the fleece in thermoregulation in German Merino ewes. (With One Text-figure)	311
HULL, P. Genetic relations between carcass fat and body weight in mice. (With Three Text-figures)	317
JENKINS, N. K. and TYLER, C. Changes in egg shell thickness and white and yolk weight and composition over a period of a year. (With Four Text-figures)	323
ROBINSON, J. B. D. Nitrogen studies in a coffee soil. I. Seasonal trends of natural soil nitrate and ammonia in relation to crop growth, soil moisture and rainfall. (With Three Text-figures)	333
OYENUGA, V. A. Effect of stage of growth and frequency of cutting on the yield and chemical composition of some Nigerian fodder grasses— <i>Panicum maximum</i> Jacq. (With Ten Text-figures)	339

	PAGE
HAFEZ, E. S. E. and RUPNOW, E. H. Proportionality of organ development in osteo-dystrophic dwarf beef cattle. (With Three Text-figures)	351
ROGERSON, A. The effect of environmental temperature on the energy metabolism of cattle	359
KUSHNER, H. F. DOBRYNINA, A. YA., KOSTIN, I. G., ZUBAREVA, L. A. SAMOLETOV, A. I. and SALIGANIK, M. G. The effect of microdoses of ionizing radiation on poultry ontogenesis	365
GREENHALGH, J. F. D. and CORBETT, J. L. The indirect estimation of the digestibility of pasture herbage. I. Nitrogen and chromogen as faecal index substances. (With Two Text-figures)	371
GREENHALGH, J. F. D., CORBETT, J. L. and McDONALD, I. The indirect estimation of the digestibility of pasture herbage. II. Regressions of digestibility on faecal nitrogen concentration: their determination in continuous digestibility trials and the effect of various factors on their accuracy. (With Three Text-figures)	377
GARNER, R. J. and JONES, H. G. Fission products and the dairy cow. IV. The metabolism of ¹³¹ I following single and multiple doses. (With Eight Text-figures)	387
GLOVER, J. and DOUGALL, H. W. The apparent digestibility of the non-nitrogenous components of ruminant feeds. (With Two Text-figures)	391
ARMSTRONG, D. G., BLAXTER, K. L., CLAPPERTON, J. L., GRAHAM, N. McC. and WAINMAN, F. W. Heat production and heat emission of two breeds of sheep. (With Five Text-figures)	395
GLOVER, J., DUTHIE, D. W. and DOUGALL, H. W. The total digestible nutrients and gross digestible energy of ruminant feeds. (With Three Text-figures)	403
BARBER, R. S., BRAUDE, R., HOSKING, ZENA D. and MITCHELL, K. G. Labour saving in the feeding of sows	409
BARUA, D. N. Effect of age and carbon-dioxide concentration on assimilation by detached leaves of tea and sunflower	413

THE EMPIRE JOURNAL OF EXPERIMENTAL AGRICULTURE

THIS JOURNAL offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of live stock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental techniques.

Vol. XXVIII. No. 112 CONTENTS

October 1960

- D. E. TRIBE, B. A. BONIWELL, and Y. AITKEN: Fodder Crops for Fattening Lambs in Seasons of Low Rainfall
- T. H. ROSE and W. DERMOTT: Micro-Nutrient Deficiencies in Arable Crops in Romney Marsh. I
- P. K. S. CLINTON: Some Pests and Diseases of Sorghum, and their Control in the Central Rainlands of the Sudan
- R. A. McCREERY: The Mineral Content of Abaca in Relation to Fertilizer Use in Costa Rica
- N. G. GOKHALE: Estimating the Probable Change in Yield with Time, on Altering the Level of Manuring of Tea
- J. C. BURRIDGE and R. K. CUNNINGHAM: Cacao Yield Maps and Soil Fertility in Ghana
- P. A. JONES, J. B. D. ROBINSON, and J. A. N. WALLIS: Fertilizers, Manure, and Mulch in Kenya Coffee Growing

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to SIR JOHN HAMMOND, School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

Bibliography should be given under the heading of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books should be in italics.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 60s. net per volume (post free); single numbers 25s. net. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$11.50 per volume; single number \$4.25. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, N.Y.
