

Introducing a new journal of statesmanship and political thought.

The *Claremont Review of Books* is the new flagship publication of the Claremont Institute for the Study of Statesmanship and Political Philosophy.

Why a book review, you might ask? Because it is a format that conservatives have not exploited, and we think that conservatives need, persistently and farsightedly, to wage the battle of ideas at the level of ideas rather than merely at the level of particular policies, important as these are. The galaxy of conservative journals and think-tanks will continue to shine brightly, of course, illuminating ideas as well as issues. But every month important conservative books and arguments languish, liberal tomes escape censure, and intelligent works of biography, history, politics, and literature remain unexamined. We aim to change that.

At the same time, we intend in each issue to reflect on current contentions and help reawaken in American politics, and especially in American conservatism, a forthright devotion to the Constitution and the principles of our political tradition. We believe this essential if conservatism is to understand its own majestic purposes, as well as to become a more effective political force.

The Winter 2001 issue, available now, features an exclusive excerpt from James W. Ceaser and Andrew E. Busch's forthcoming book on the realignment election of 2000, called *The Perfect Tie*. Also featured: Michael Uhlmann's defense of the Electoral College, Harry V. Jaffa on what *Crisis of the House Divided* and *A New Birth of Freedom* have in common, David Tucker on the reparations debate, Mark Gauvreau Judge on Ken Burns' *Jazz*, a symposium on what the 20th century can teach the 21st, plus reviews and essays on the most important books of the day. For more information, visit us on the World Wide Web at www.claremont.org.

Religion and Politics in Enlightenment Europe

James E. Bradley
&
Dale K. Van Kley,
editors

"THIS BOOK SETS NEW STANDARDS FOR THE comparative study of religion during the Enlightenment. It challenges us to correct the distorting effects of 1789, to consider the religious rationales of the anciens regimes, and to weigh the challenges that orthodoxy and heterodoxy posed to them. It is certain to be the starting point for many debates." —Jonathan Clark, author of *English Society 1660-1832* and *The Language of Liberty 1660-1832*

The Collected Works of Eric Voegelin

Volume 13

Selected Book Reviews

Translated and Edited

by Jodi Cockerill and Barry Cooper

With an Introduction by Barry Cooper

The contents of the books Voegelin reviewed mirror his changing interests over the years, including questions of method, points of legal philosophy and jurisprudence, and issues of race, war, and the aftermath of war. This collection of Voegelin’s reviews amounts to a reflection in miniature of many of the problems Voegelin tackled in his essays, articles, and books from the 1920s until the 1950s, when, owing to the press of other business, he began to decline requests to review the work of others.

Order and History, Volume I

Israel and Revelation

Edited with an Introduction

by Maurice P. Hogan

Eric Voegelin’s *Israel and Revelation* is the opening volume of his monumental *Order and History*, which traces the history of order in human society. This volume examines the ancient near eastern civilizations as a backdrop to a discussion of the historical locus of order in Israel. The drama of Israel mirrors the problems associated with the tension of existence as Israel attempted to reconcile the claims of transcendent order with those of pragmatic existence and so becomes paradigmatic.

NEW FROM LIBERTY FUND

A brilliant new collection of William Penn's pivotal insights on religious liberty and liberty of conscience.

The Political Writings of William Penn

Introduction and Annotations
by Andrew R. Murphy

William Penn's social status, indefatigable energy for publication and command of biblical and historical sources give his political writings a twofold significance: as a window on toleration and liberty of conscience, perhaps the most vexing issue of Restoration politics; and as part of a broader current of thought that would influence political thought and practice in the colonies as well as in the mother country.
