# JOURNAL of PALEONTOLOGY

VOL 97 | NO 2 | MARCH 2023

## REGULAR ARTICLES

- 271 Peter A. Siver and Anne Marie Lott**  
History of the Giraffe Pipe locality inferred from microfossil remains: a thriving freshwater ecosystem near the Arctic Circle during the warm Eocene
- 292 Colin D. Sproat and Jessica S.A. McLeod**  
Sympatric speciation driving evolution of Late Ordovician brachiopod *Zygospira* in eastern North America
- 318 Alexander N. Zimmerman, Claudia C. Johnson, George E. Phillips, and Dana J. Ehret**  
Taxonomy and paleobiogeography of rudist bivalves from Upper Cretaceous strata, Gulf Coastal Plain and Puerto Rico, USA
- 341 Franz T. Fürsich, Suraj Bhosale, Matthias Alberti, and Dhirendra K. Pandey**  
Miocene instead of Jurassic: the importance of sound fieldwork for paleontological data analysis
- 347 David H. Evans and Marcela Cichowolski**  
Revision of *Eothinoceras* and the status of the Eothinoceratidae (Cyrtocerinida, Multiceratoidea, Cephalopoda)
- 355 David J. Holloway and Brian M. Scott**  
*Needmorella*, a new trilobite genus of the Synphoriinae (Dalmanitidae) from the Lower–Middle Devonian of West Virginia
- 366 Christopher H. Dietrich, Serguei A. Simutnik, and Evgeny E. Perkovsky**  
Typhlocybinae leafhoppers (Hemiptera, Cicadellidae) from Eocene Rovno amber reveal a transition in wing venation and a defensive adaptation
- 380 William I. Ausich and Nikki E. Zehler**  
Recovery of Laurentian cyclocystoids following Late Ordovician extinctions (Brassfield Formation, Llandoverly; southwestern Ohio)
- 386 Hyeonmin Park and Dong-Chan Lee**  
*Goryeocrinus pentagrammos* n. gen. n. sp. (Rhodocrinitidae; Diplobathrida), the first record of camerate crinoid from the Middle Ordovician (Darriwilian) of South Korea (East Gondwana)
- 395 Muhammad Aqqid Saporin and Mohd Suhaili Ismail**  
Latest Ordovician to earliest Silurian graptolites of northwest Peninsular Malaysia
- 421 Jian-Feng Lu, Wen Guo, Yi Wang, and Hong-He Xu**  
The first discovery of Lochkovian (Lower Devonian) conodonts in central Guangxi, South China and its geological implications
- 434 Daniel T. Ksepka, Daniel J. Field, Tracy A. Heath, Walker Pett, Daniel B. Thomas, Simone Giovanardi, and Alan J.D. Tennyson**  
Largest-known fossil penguin provides insight into the early evolution of sphenisciform body size and flipper anatomy
- 454 María E. Arnaudo and Michelle Arnal**  
First virtual endocast description of an early Miocene representative of Pan-Octodontoidea (Caviomorpha, Hystricognathi) and considerations on the early encephalic evolution in South American rodents
- 477 Craig S. Scott, Sergi López-Torres, Mary T. Silcox, and Richard C. Fox**  
New paromyids (Mammalia, Primates) from the Paleocene of southwestern Alberta, Canada, and an analysis of paromyid interrelationships
- 499 Katie M. Maloney, Dakota P. Maverick, James D. Schiffbauer, Galen P. Halverson, Shuhai Xiao, and Marc Laflamme**  
Systematic paleontology of macroalgal fossils from the Tonian Mackenzie Mountains Supergroup
- 516 Steven T. LoDuca, Mike Meacher, Mark Pepper, Kevin Brett, and Phillip A. Isotalo**  
*Earltonella fredricksi* n. gen. n. sp. and *Thalassocystis striata* (Chlorophyta, Bryopsidales) from the Silurian (Llandoverian) of the Timiskaming outlier, Ontario, Canada
- Taxonomic Note**
- 533 Francisco J. Goin, Emma Carolina Vieytes, Vicente D. Crespo, and Édison V. Oliveira**  
*Estelestes ensis* (Mammalia, Metatheria) from the early Eocene of Baja California (Mexico) as a generalized polydolopimorphian

Cover illustration: Translucent cranium of *Prospaniomys priscus*. Arnaudo & Arnal, Fig. 9.
