Glastonbury Abbey

The Holy House at the Head of the
Moors Adventurous

James Carley

The great Abbey at Glastonbury has been the focus of fantastic myths and legends for most of its 1000-year history. A holy place even before the Saxon invasion of England, some believe that it was founded by Christ's disciples. Carley here examines the Abbey's factual history as well as the legends of occult magic, Arthurian romance, and what has been called "the immemorial mystery of Glastonbury."

Ephemeral Vistas

A History of Expositions Universelles,
Great Exhibitions and World's Fairs,
1851-1939

Paul Greenhalgh

Studies in Imperialism

The great exhibitions of the 19th and early 20th centuries were designed to sum up the progress of the world at that time. Greenhalgh argues here that at the core of the exhibitions was the imperial idea that Europe in general, and Britain in particular, led and controlled the world. *Ephemeral Vistas* places the great exhibitions in historical and political perspective, relating major issues and forces of the day to the objects and people on show.

A Manchester Book

Britain and the Arab-Israeli Conflict, 1948-51

Ilan Pappé

Based on primary sources made available only recently in British, Israeli, and American archives, this book offers new insights into Britain's policy towards Palestine in the post-Mandatory era. Pappé examines the circumstances which led to the formulation of Britain's original policy for the partition of Palestine and its implementation. A timely and important examination of British involvement in Palestine.

Twelve Good Men and True

The Criminal Trial Jury in England, 1200–1800

Edited by *J.S. Cockburn* and *Thomas A. Green*

Twelve Good Men and True brings together some of the most ambitious and innovative work yet undertaken on the history of an English legal institution. These eleven essays examine the composition of the criminal trial jury in England, the behavior of those who sat as jurors, and popular and official attitudes toward the institution of jury trial from its emergence in the early thirteenth century until 1800.

This extensive collection marks the first occasion on which scholars working in several different time periods have focused their attention on the history of a single legal institution.

The Lordship of England

Royal Wardships and Marriages in English Society and Politics, 1217–1327

Scott L. Waugh

This thorough examination of the feudal powers of English kings in the thirteenth and early fourteenth centuries is the only study to analyze the actual pattern of royal grants and the grantees' use of their rights, and to place them in the social context of marriage, kinship, and landholding within the English elite. Scott Waugh shows why royal lordship was of fundamental importance in reinforcing the power and prestige of the monarchy and in offering the king a valuable source of patronage.

THE INNOVATIONS OF JOHN NEWTON (1725-1807)

Synergism of Word and Music in Eighteenth Century Evangelism

This work surveys the preaching and hymnody of John Newton. The author had access to unpublished autographs and new data. The book is divided into two sections: Part I surveys the preaching message, the homiletical method and the effect of Newton's preaching during the Olney and London periods. Part II surveys Newton as the hymnwriter and the influence of his Olney hymns.
