

Subject Index to Volume 34

A

- Acardia, 89
- Activity restriction, 81
- Acute polyhydramnios, 179
- Alcohol, fetal, 229
- Amniocentesis, 179
- Analgesia, epidural, 193
- Analysis of variance, 113, 141
- Antenatal care, 189, 201
- Antigen, plasma carcinoembryonic, 153
- Apgar score, 207
- Aryl-hydrocarbon hydroxylase, 153
- Assessment in infant twins, 15

B

- Bed rest, 67, 189
- Bendectin, 101
- Birth, preterm, 201
- Birthweight, 49, 67
- Blood pressure, 217, 225
- Body fatness, 41
- Breech presentation, 207

C

- Cancer, 153
- Cardiac output, 225
- Care, antenatal, 189, 201
- Caesarean section, 193
- Chromosomes, D & G group, 141
- Clefting, 1
- Compression, uterine, 175
- Concordance, 125
- Contraceptives, oral, 105

Contractions, premature, 175

Craniofacial genetics, 1

Craniorachischisis, 89

D

- Death, neonatal, 81
- Defects, speech, 95
- Delivery, preterm, 67
- Difference, Weinberg's, 167
- Disabilities, language, 95
- Discordant, 185
 - MZ twins, 89, 101
- dU-estrogen, 59
- Dysgraphia, 95
- Dyslexia, 95
- Dysorthography, 95

E

- Energy expenditure, 41
- Environment & IQ, 33
- Environmental similarity in twins, 33
- Epidural analgesia, 193
- Exchange, sister chromatids, 153

F

- Facial skeleton, 1
- Fatness, 41
- Fetal alcohol, 229
- Fetal monitoring, 213
- Feto-fetal transfusion, 179

G

- Genetics, craniofacial, 1
 Gestational age, 49
 Growth retardation, intrauterine, 59, 73

H

- Heart defect, 101
 Hemorrhage, postpartum, 81
 Heritability, 125
 Hormone reference intervals, 59
 Human placental lactogen, 59

I

- Immunoglobulins, serum, 153
 Infant twin assessment, 15
 Infant mortality, 49
 Intrapartum monitoring, 193
 Intrauterine growth retardation, 59, 73
 IQ & environment, 33

L

- Language disabilities, 95
 Likelihood method, 167
 Linkage, 109
 Lymphocytes, T & B, 153

M

- Magnesium, 109
 Malpresentation, 81
 Marker loci, 109
 Metabolic rate, 41
 Method
 - likelihood, 167
 - sib-pair, 109
 Microcomputers, 113
 Mitogen activation, 153
 Monitoring
 - fetal, 213
 - intrapartum, 193
 Mortality, perinatal, 67, 193, 207
 MZ twins, 185
 - discordant, 89, 101

N

- Neonatal death, 81
 Neuropsychological evaluations, 95
 NOR staining, 141

O

- Omphalocele, 185
 Oral contraceptives, 105
 Ovulation stimulants, 105

P

- Perinatal mortality, 76, 193, 207
 Placental pathology, 73
 Plasma carinoembryonic antigen, 153
 Polyhydramnios, acute, 179
 Postpartum hemorrhage, 81
 Posture, standing, 175
 Pre-eclampsia, 217
 Pregnancy, twin, 49, 59, 67, 175, 179,
 189, 201, 207, 213, 217, 225, 229,
 233

- Premature contractions, 175
 Prematurity, 81, 175, 189, 193

- Prenatal care, 189, 201
 Presentation, breech, 207
 Pressure, blood, 217, 225
 Preterm

- birth, 201
- delivery, 67

- Prevalence, 125
 Prevention, 201
 Prune belly, 101

R

- Rates, twinning, 105
 Registers, twin, 125
 Resting metabolic rate, 41
 Retardation, intrauterine growth, 59, 73

S

- Selection, 125
 Serum immunoglobulins, 153

- Sib-pair method, 109
- Similarity, environmental in twins, 33
- Sister chromatid exchange, 155
- Small for dates, 67
- Speech defects, 95
- Standing posture, 175
- Stimulants, ovulation, 105
- Symphyseal-fundal measurement, 198
- 201, 207, 213, 217, 225, 229, 233
- registers, 125
- samples, 167
- to-twin transfusion, 233
- Twinning rates, 105
- Twins
 - discordant MZ, 89, 101
 - MZ, 185

T

- Teeth, 1
- Temperament, 15
- Teratogenesis, 229
- Tigan, 101
- Tocolytic drugs, 193

Transfusion

- feto-fetal, 179
- twin-to-twin, 233

Triplets, 81

Trisomy 13, 185

Twin

- Caesarean section, 193
- concordance, 15
- data, 113
- environmental similarity
- infant assessment, 15
- method, 33
- pregnancy, 49, 59, 67, 175, 179, 189,

U

- Ultrasounds, 189, 193, 213
- Umbilical artery waveforms, 233
- Umbilical cord, 73
- Uterine compression, 175

V

- Variance, analysis, 113, 141
- Venous return, 175

W

- Weinberg's difference, 167

Z

- Zinc, 109
- Zygosity, 167
