EDITOR

JOHN B. BOOTH

ASSISTANT EDITORS

DAVID WRIGHT, NEIL WEIR, PATRICK BEASLEY AND CAROL WENGRAF

## INSTRUCTIONS FOR AUTHORS

1. Original articles which have not been published elsewhere are invited and should be sent to the Editor. They are considered for publication on the understanding that they are contributed to this *Journal* solely. Reproduction elsewhere, in whole or in part, is not permitted without the previous written consent of the Author and Editor and the customary acknowledgement must be made. Normally an original main article should not exceed 7500 words.

Longer articles or theses will be considered for publication as *Supplements*, at the expense of the authors or their employing authorities.

2. Manuscripts should be typewritten in duplicate on one side only of the paper (A4 297×210 mm) and double spaced, with wide margins.

Begin each component on a new page in the following sequence: title page, abstract, text, acknowledgements, references, tables and legends.

(a) **Abstract**—This should contain not more than 150 words and include a statement of the problem, the method of study, results and conclusions; a 'summary' section should *not* be included in the main manuscript.

(b) **Text**—Suggested outline—(1) introduction, (2) materials and methods, (3) results, (4) discussion, (5) conclusion.

(c) **Tables** are adjuncts to the text and should not repeat material already presented.

(d) **Illustrations**—Two sets of illustrations, one with each copy of the manuscript, must be submitted and all authors should remember that the single column width is 80mm. One set of illustrations should, therefore, not exceed this width and they should ensure that the essential features are illustrated within this dimension.

Coloured illustrations will be charged to authors, unless a special grant is authorized by the Editor.

Written permission from the publisher must be provided to the *Journal* in order to republish material with copyright elsewhere and also from the senior author where necessary.

(e) **Measurements** must be in metric units, with *Système Internationale* (SI) equivalents given in parentheses.

(f) **References**—For *Journal* articles, The Harvard system of recording references should be used, e.g. Green, C. and Brown, D. (1951). The tonsil problem. *Journal of Laryngology and Otology* 65: 33–38. A paper written by more than two authors should be abbreviated in the text, e.g. Green *et al.* 1951, but *all* the authors should be given in the list of references. The titles of all *Journals* should be given without abbreviation. **References should be listed in alphabetical order**; use of the Vancouver system will *not* be accepted.

For single-author books, the following style should be used: Green, C. (1951). *The tonsil problem*, 2nd edn., vol. 1, Headley Brothers Ltd., Ashford, Kent, 98 pp.

For papers in multi-author books with one or more editors, the reference should be recorded as follows: Brown, D. (1951). In *Diseases of the Ear, Nose and Throat* (White, A. and Black, B., eds.), pp. 33–38, Headley Brothers Ltd., Ashford, Kent.

**It is most important that authors should verify personally the accuracy of every reference before submitting a paper for publication. The names of authors cited in the References should be given in alphabetical order.**

(g) **Meetings**—If the manuscript was presented at a meeting, the place where it was held, and the date on which it was read must be included and should appear at the foot of the title page.

(h) **Financial disclosures**—In the submission letter to the Editor, the authors must list all affiliations with or financial involvement in, organizations or entities with a direct financial interest in the subject matter or material of the research discussed in the manuscript.

(i) **Rejections**—As from January, 1989, all manuscripts which are rejected will no longer be returned to the authors. Those submitting papers should, therefore, ensure that they retain at least one copy and the reference numbers, if any, of the illustrations. The only exception to this will be those manuscripts with colour illustrations which will be returned *automatically* by Surface Mail.

3. Page proofs are sent to authors for corrections, which should be kept to a minimum; they must be clearly marked, and no extra matter added. Proofs should be returned within 5 days.

4. Orders for reprints must be sent when returning page proofs, and for this purpose special forms are supplied.

5. Editorial communications may be addressed to **The Editor, Journal of Laryngology and Otology, c/o Headley Brothers Ltd., The Invicta Press, Ashford, Kent TN24 8HH.**

6. **The annual subscription is £60 (sixty pounds sterling) post free; U.S.A. \$150 post free, and payable in advance.** Reduced rates for those in-training (Residents/Registrars) £35/\$90. (Those in training should submit a certificate from the Head of the Department giving details of their appointment; those who qualify must supply their *home* address for mailing direct).

7. Single copies of current or back numbers (when available) will be on sale at £10 each (including postage).

8. All subscriptions, advertising and business communications should be sent to the publishers, or subscription agents.

**HEADLEY BROTHERS LTD,  
THE INVICTA PRESS, ASHFORD, KENT.**

# Stroboscope Generator 5012

the universal unit for diagnosis of functional disorders of the vocal chords

- simple operation
- high light intensity
- second light connection
- fast and sure triggering even with "poor" phonation
- display of phase, frequency and sound level
- application with rigid or flexible endoscopes (e. g. magnifying laryngoscope or nasopharyngoscope)
- integrated air insufflator to prevent fogging of magnifying laryngoscope
- can be used in conjunction with video systems and text generators

...the official "voice" of

## **The Canadian Society of Otolaryngology Head and Neck Surgery**

is published in February, April, June, August, October and December

---

Established in 1972, The Journal of Otolaryngology publishes original papers dealing with clinical and research aspects of otolaryngology in its broadest sense, including:

- AUDIOLOGY**       **HEAD AND NECK SURGERY**
- BRONCHO-OESOPHAGOLOGY**       **MAXILLOFACIAL SURGERY**
- FACIAL PLASTIC AND RECONSTRUCTIVE SURGERY**
- COMMUNICATIVE DISORDERS**

The Journal of Otolaryngology, with thirteen corresponding editors contributing from around the world and half of its circulation outside Canada, is a truly international publication.

The Editor, Derek Birt, M.B., of Toronto, hopes that this international "flavour" will serve as a significant factor in your decision to become a new subscriber to The Journal of Otolaryngology.

# Laryngology & Otology Publications

Available from the Publishers and from Agents throughout the world.

Prices include postage and packing.

## The Journal of Laryngology and Otology

Edited by John B. Booth

A leading international journal, published monthly and containing original scientific articles and clinical records in all fields of Otolaryngology and Laryngology. Including occasional supplements.

Founded in 1886.

Annual subscription for 1989 (calendar year): £60.00 Agents £51.00 (US\$150.00 Agents \$127.50); Students rate £35.00 (US\$90.00)

ISSN 0022 2151

## Supplements still available separately.

### Traité de L'Organe de L'Ouïe

by Nehemiah Asherson

This Bibliography of one of the earliest accurate descriptions of the organ of hearing, which first appeared in 1683, represents the culmination of a lifetime of historical research. It includes a biographical section on Du Verney, the author of the 'Traité'.

Pp 110 ISBN 0 7186 0447 4

Retail £7.00 Agents £6.12 (US\$14.00 Agents \$12.25)

### The ENT Surgeon looks at the Orbit

by D. F. N. Harrison

This supplement records in some detail Professor Harrison's 'personal experience over a period of 20 years dealing with a wide variety of clinical conditions in which entry into the orbit was a desirable or essential part of treatment'.

Pp 42 Printed 1980

Retail £4.00 Agents £3.50 (US\$8.00 Agents \$7.00)

### Tinnitus

Chairman: Abraham Shulman

The Proceedings of The First International Tinnitus Seminar, which was held in New York in June 1979. Practically all the original papers are reproduced in full, and there are edited versions of all the Panel Discussions. The contributions, from an international group of experts, give comprehensive coverage to a subject of great current interest and importance.

Pp 216 Printed 1981

•Retail £10.00 Agents £8.75 (US\$20.00 Agents \$17.50)

### 20 Years Experience with Homografts in Ear Surgery

by Christian Betow

The author, a professor of Otolaryngology in West Berlin, gives a full account of his pioneering development of homograft materials in reconstructive surgery of the middle ear.

Pp 28 Printed 1982

Retail £4.00 Agents £3.50 (US\$8.00 Agents \$7.00)

### Laryngology Applied to Singers and Actors

by Norman A. Punt

This fascinating monograph fills an obvious void in laryngological literature. The author, eminent in the field of vocal problems in theatre and opera house, writes with understanding, knowledge and concern. When mixed with valuable advice and useful prescriptions, this monograph will serve to guide all who find themselves called upon to help these most sensitive individuals.

Pp 24 Printed 1983

Retail £4.00 Agents £3.50 (US\$8.00 Agents \$7.00)

### Experimental and Clinical Studies in Otitis Media with Effusion

by Jamsheed A. Khan

An experimental and clinical study on the effects of Carbocisteine on fluid in the middle ear.

Pp 28 Printed 1983

Retail £4.00 Agents £3.50 (US\$8.00 Agents \$7.00)

### Proceedings of the Sixth British Academic Conference in Otolaryngology

Edited by John Ballantyne and John Booth

Pp 134 Printed 1983

Retail £5.00 Agents £4.50 (US\$10.00 Agents \$7.50)

### Second International Tinnitus Seminar

Chairman: Abraham Shulman

A comprehensive study of the problems and treatment of tinnitus.

Pp 323 Printed 1984

Retail £20.00 Agents £17.50 (US\$40.00 Agents \$35.00)

### Forensic Audiology

by Chuang Wei Ping

A clear concise and practical guide to industrial hearing damage by a barrister/physician. This is an unusual and highly specialised aide memoire for the personal injuries practitioner, well illustrated with recent case law. A commendable enterprise by the author.

Pp 57 Printed 1986

Retail £7.00 Agents £6.12 (US\$14.00 Agents \$12.25)

### The Acute Orbit

Preseptal (Periorbital) cellulitis subperiosteal abscess and orbital cellulitis due to sinusitis.

by J. R. Moloney, N. J. Badham and A. McRae

Pp 18 Printed 1987

Retail £7.00 Agents £6.12 (US\$14.00 Agents \$12.25)

### Nasal Mast Cells: A Preliminary Report on their Ultrastructure

by A. B. Drake-Lee, F.R.C.S.

The ultrastructural morphology of mast cells in the nose and the adenoids are compared. Normal cells have a very varied morphology with electron dense granules which have scrolls occasionally. Cells from patients with perennial allergic rhinitis show variable degranulation in all areas examined. Few cells were seen in the surface epithelium. Cells from the adenoids had different degrees of degranulation which suggests that mast cell reactions are not a constant feature.

Pp 17 Printed 1987

Retail £10.00 Agents £8.75 (US\$20.00 Agents \$17.50)

### Surgical Anatomy of Structures Adjacent to the Thyroid Apex and Post-operative Voice Change (A Review Including Dissection)

by K. L. Yezingatsian, F.R.C.S.

Pp 13 Printed 1987

Retail £10.00 Agents £8.75 (US\$20.00 Agents \$17.50)

### Inferior Meatal Anstrostomy Fundamental Considerations of Design and Function

by Valerie Joan Lund, M.S., F.R.C.S.

Pp 18 (Contains 12 x 4 colour illustrations) Printed 1988

Retail £15.00 Agents £13.12 (US\$30.00 Agents \$26.25)

### Surgical Management of the Discharging Mastoid Cavity

by R. P. Mills, M.Phil., F.R.C.S.

Pp 6 Printed 1988

Retail £10.00 Agents £8.75 (US\$20.00 Agents \$17.50)

### Acquired Subglottic Stenosis

by C. M. Bailey, B.Sc., F.R.C.S.

Pp 48 Printed 1988

Retail £12.00 Agents £10.50 (US\$24.00 Agents \$21.00)

# when vertigo puts them in a spin

**“The first attack  
of Ménière’s  
disease may be  
monosymptomatic,  
with sudden,  
prolonged vertigo  
without deafness  
or tinnitus.”<sup>1</sup>**

# sercurity

betahistine

## tackles the symptoms by treating the cause

**Presentation**  
White tablets containing 8mg  
betahistine dihydrochloride. Available  
in packs of 120 tablets. Basic NHS  
price: £12.88.

**Indications**  
Vertigo, tinnitus and hearing loss  
associated with Ménière’s syndrome.

**Dosage and Administration**  
*Adults:* Initially two tablets three times  
daily, taken preferably with meals.

*Maintenance dose:* 3-6 tablets daily.  
*Children:* No dosage recommendations  
are made for children.

**Contra-indications, Warnings, etc.**

**Contra-indications:**  
Phaeochromocytoma.

**Precautions:** Clinical intolerance to  
Serc in bronchial asthma patients has  
not been shown, but caution should be  
exercised when administering this  
histamine analogue to bronchial asthma  
patients. Interaction between Serc and  
antihistamines is theoretically possible,  
but no reports have been received. The  
usual precautions should be observed  
when administering Serc to patients in  
pregnancy.

**Side effects:** There has been a small  
number of reports of gastric upset.

**Product Licence Number**  
0512/0076.

**Reference:**

## EDITORIAL

I would like to take this opportunity at the end of the year to thank, not only the Assistant Editors and Professor Imrich Friedmann who shoulder much of the burden of reviewing the papers, but to the 46 other individuals who have so kindly given up their time and services over the last 18 months. Their help is greatly appreciated and their specialized expertise with manuscripts on particular topics has been especially helpful:
